12. Accounts and Budget
Presented by Kaj A. Jørgensen

Kaj presented the account for 2018 and the budget for 2019 and 2020, all the documents were sent to the council prior to the meeting. The expenses were higher than the income in 2018, with a difference of 457,000 DKK, which means that the assets have gone down. It was noted that the groups can apply for support to cover travel expenses to enable an expert(s), who is not a member of the group, to participate in the group and give the group relevant information. The decision to accept such an application is made by the Medical Director responsible to the Board.

The board suggested a budget of 6.2 mill DKK for 2020 and the same payment of 2,600 DKK per transplanted patient for 2019.

Budget and payment were approved

This year all groups have made a short written report about their activities prior to the Council meeting, these reports have been distributed to all council members.

It was suggested that reports are always sent out in advance.

It was decided that each group send a small report and makes a short presentation at the Council Meeting of Representative.
