#### Content

- 1 Introduction and purpose
- 2 Nordic Liver Transplant Registry (NLTR)
- 2 All recipients – patient and waiting list administration

---

**'NLTR  
registration forms'  
were implemented  
23rd of March 2015**

---

## Nordic Liver Transplant Registry (NLTR)

The new NLTR registration forms have passed the internal and external testing procedures and were implemented and accessible in production 23<sup>rd</sup> of March 2015.

<https://sc37.scandiatransplant.org>

Access through the old user interface is kept open, however we strongly recommend to start using the new user interface, as the 'old' access will at some time point be closed down.

If you do not see the Nordic Liver Registry menu in the new user interface it might be that you do not have access to this part of the system. If you need access please contact us.

## All recipients – patient and waiting list administration

---

**All recipients  
Still available for test**

---

One of the most essential parts of Scandiatransplant is still available for test. The module covers, registration of patient information, waiting list administration (entry/active/on hold/withdrawal) and STAMP/LAMP

Test point: <https://sc37.scandiatransplant.org/sctpTest/>

A manual is available:

[http://www.scandiatransplant.org/organ-allocation/All\\_recipients\\_11mar2015.pdf](http://www.scandiatransplant.org/organ-allocation/All_recipients_11mar2015.pdf)

The manual does not describe the usage of STAMP/LAMP this will be presented in a separate manual, coming soon.

**We encourage all of you to access the test-point to try out the new patient and waiting list administration module.**

Please do not hesitate to send us any feedback you might have and contact us if you have problems with login/navigating.
