**Liver rotation list  
change  
from 1<sup>st</sup> of June 2017**

---

## Change in liver rotation list

At the latest Nordic Liver Transplantation Group meeting held 4<sup>th</sup> of April 2017 it was decided that Stockholm and Gothenburg should only have one common entry on the liver rotation list. This to avoid imbalance in liver import/export.

This change has now been implemented in YASWA and is effective from today 1<sup>st</sup> of June 2017.

Liver rotation		
Status of list before rotation		
1.: Helsinki	Last rotated by:	date: 17-Feb-2017
2.: Stockh./Göteb.	Last rotated by:	date: 04-Mar-2017
3.: Oslo	Last rotated by:	date: 03-Apr-2017
4.: København	Last rotated by:	date: 10-May-2017

## Tartu associated member of Scandiatransplant

At the Scandiatransplant Council of representatives meeting May 10<sup>th</sup>, 2017 Tartu University Hospital, Estonia was accepted as an associate member of Scandiatransplant.

Some preparatory work (programming and education) remains before Tartu can become active in Scandiatransplant (i.e. participate in organ exchange).

---

**YASWA getting ready  
for Tartu**

---

The office has started the programming in YASWA and you will see Tartu starting to appear around the system.

No data to display

An activation date will be set by the Scandiatransplant Board and from this date, all Estonian transplantations must be performed within Scandiatransplant and according to Scandiatransplant rules and regulations.

Until then everything must be handled as previously in regards to Tartu, Estonia.

## Updates in existing YASWA modules – minor change in layout

### Minor layout change

A light blue color has been added to every second line to make it easier to distinguish between the lines. Furthermore, list of value has been change in the infection status registration so that the value 'Negative' comes first.

Specific data	Infection serology	STAMP/LAMP	STAMP Aux	STAMP QC	Urgency History	Termination
<b>Infection serology</b>						
Serology Code	Result					
CMV: Anti-CMV (Cytomegalovirus)	+: Positive					
EBV: Anti-EBV IgG (Epstein-Barr)	+: Positive					
HBc: Anti-HBc (antibody)	ND: Not done					
HBimm: Hepatitis B vaccinated	ND: Not done					
HBsAb: Anti-HBs (antibody)	ND: Not done					
HBsAg: Hepatitis Bs antigen	-: Negative					
HCV: Anti-HCV (antibody)	+: Positive					
HCVAg: Hepatitis C antigen (RNA)	?: Doubtful					
HIVab: Anti-HIV (antibody)	ND: Not done					
HIVag: HIV antigen	-: Negative					
LUES: Syphilis antibody	ND: Not done					
MV: Anti-MV IgG (Morbilli virus antibody)	ND: Not done					
TOXO: Toxoplasma antibodies	ND: Not done					
VZV: Varicella zoster virus	ND: Not done
