

News from Scandiatransplant office

November 2015

*Access will be closed
down to the old
system/user interface
December 1, 2015*

It is time.... to close down access to the old user interface

As you all know we have been working on converting the old user interface into a more modern user interface, which at the same time gives us the possibility to changes to 'up-to-date' servers.

The current plan is to **close down access** to the old user interface **December 1, 2015**.

We would like to know:

- Reports/statistic/extractions
 - o Which reports do you extract? (Only those which are not already available in the new user interface)
 - o How often do you extract them?
- Other
 - o Do you miss any facility in the new user interface, which you have in the old user interface?

The 'Nordic Thorax Transplantation Registry' will soon be implemented and 'Quality control' menus are on the way.

Purpose

By this information letter, we wish to communicate to you about status and progress related to the database, collaboration with groups related to Scandiatransplant and on-going working projects.

We hope that you will read it and share the information with whom it might concern.

Do not hesitate to contact us at help@scandiatransplant.org for further information, ideas, problems and help.
