

Guidelines on STEP donor blood samples required by each laboratory

(Version: March 20th 2020)

1st shipment of samples for confirmatory ABO, confirmatory HLA low resolution typing and cross-match

2nd shipment of samples for repeated cross-match

Living donor blood samples to be send for each of the two shipments

- 4 x 9 ml ACD/CPD/EDTA
- 1 x 9 ml EDTA

Labelling of samples:

- Scandiatransplant donor ID
- Donor initials
- Sample date
