

User manual

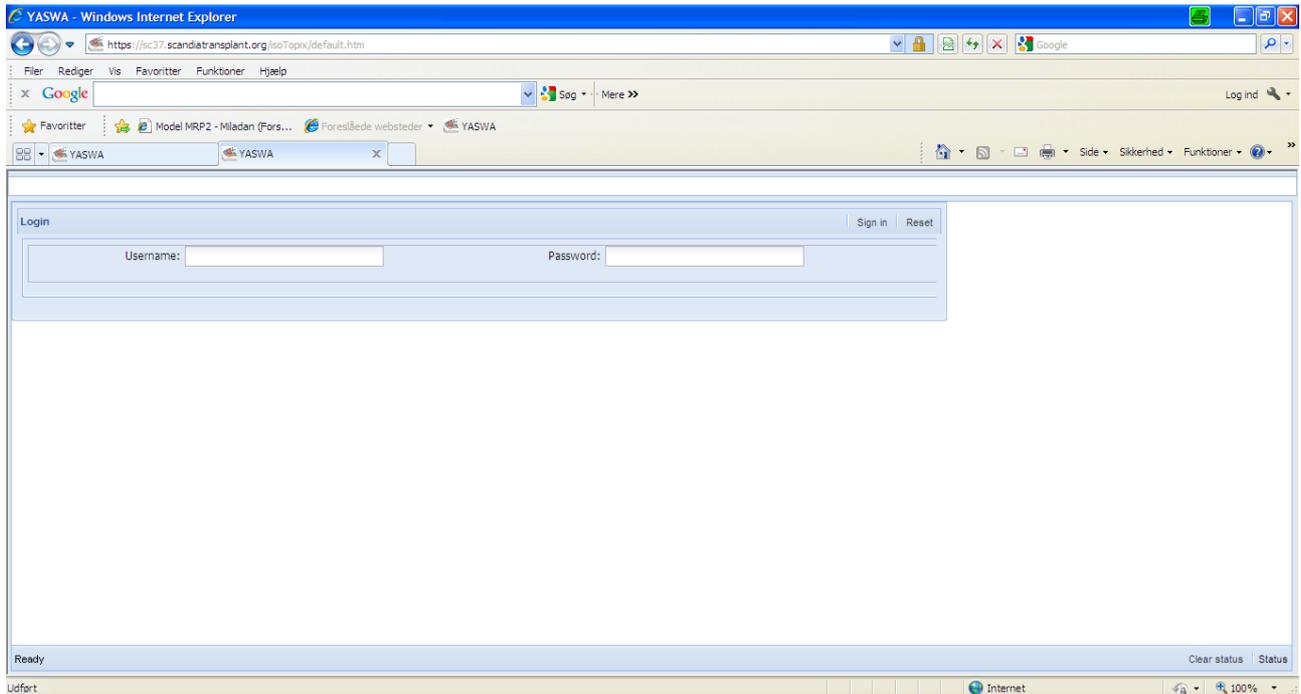

Living Kidney Donor Register

Web version (GUI – graphical user interface)

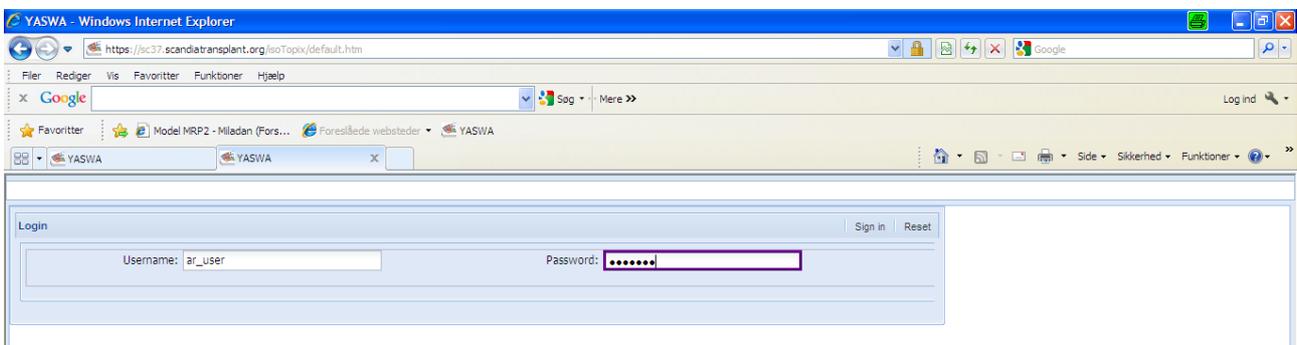

1. Log in to living donor register

Open your internet browser and enter <https://sc37.scandiatransplant.org>

In the left side of the bottom you will see the status when working in the register.

Now enter your user name and password. These are the same as you use in the “old” system. Press enter or click on the button 'Sign in'.

NB. If you are using the web version for the first time, you will after trying to log in, receive an email with a link that you will have to click on. This happens every time you try to get access to the system from an unknown IP address.

When you enter the system you go directly into the transplantation registration query mode.

The screenshot shows a web browser window titled 'YASWA - Windows Internet Explorer' with the URL 'https://sc37.scandiatransplant.org'. The page displays a 'Living donor' menu at the top left. The main content area is titled 'Transplantation registration' and contains a form for 'Recipient information'. The form includes the following fields: Scandianumber (text input), Country (dropdown menu set to 'DK: Denmark'), Person number (two text inputs), ABO blood group (dropdown menu), Surname (text input), First name (text input), Sex (dropdown menu), Transplant Center (dropdown menu), and Dononumber (text input). Below the form is a table with the following columns: Scandianumber, Country, Person number, Surname, First name, Transplant Center, and Dononumber. The table is currently empty.

If you wish to enter another menu click on 'Living donor' in the top an choose between:

- Transplantation registration
- Living donor basic (previous 'Kidney donor information')
- Living donor follow up (previous 'Kidney donor follow up')

This screenshot shows the same YASWA web application, but with the 'Living donor' menu expanded. The menu options are: 'Transplantation registration', 'Living donor basic', and 'Living donor follow up'. The 'Living donor basic' option is highlighted with a yellow box. The rest of the page content, including the 'Transplantation registration' form and the empty table, is visible in the background.

2. Transplantation registration

This menu is used for the initial registration of the living kidney donor transplantation.

In the query screen you enter one or more parameters on the recipient followed by a click on the search button. The search will retrieve a number off records that will be listed.

Click on the specific recipient that you wish to do the registration on.

Now enter and chose from 'list of values' the donor information you wish to register.

The screenshot shows a web-based form titled "Transplantation data". At the top right, there are "Save" and "Cancel" buttons. The form is organized into several sections: "Recipient information" with fields for Scandianumber (101093), Surname, and First name; "Donor information" with a Donor number field; and a "Basic" section with multiple fields and dropdown menus. The "Tx-center" dropdown is currently open, displaying a list of options: AR: Aarhus, CP: København, HR: Herlev, and OD: Odense. The "Save" button is highlighted in black, indicating it is active, and an arrow points to it from the top right corner of the form.

When done click on the save button. If you have done registrations that have not been saved the 'save button' will be displayed in black writing. If no alterations have been made the writing will be light grey.

TIP!

You can always start entering data on the donor – leave the system – and then later return to enter more data. However for the initial registration, to get the donor number, country, tx. center, date of birth, sex, tx. date and organ type are mandatory.

3. Living donor basic

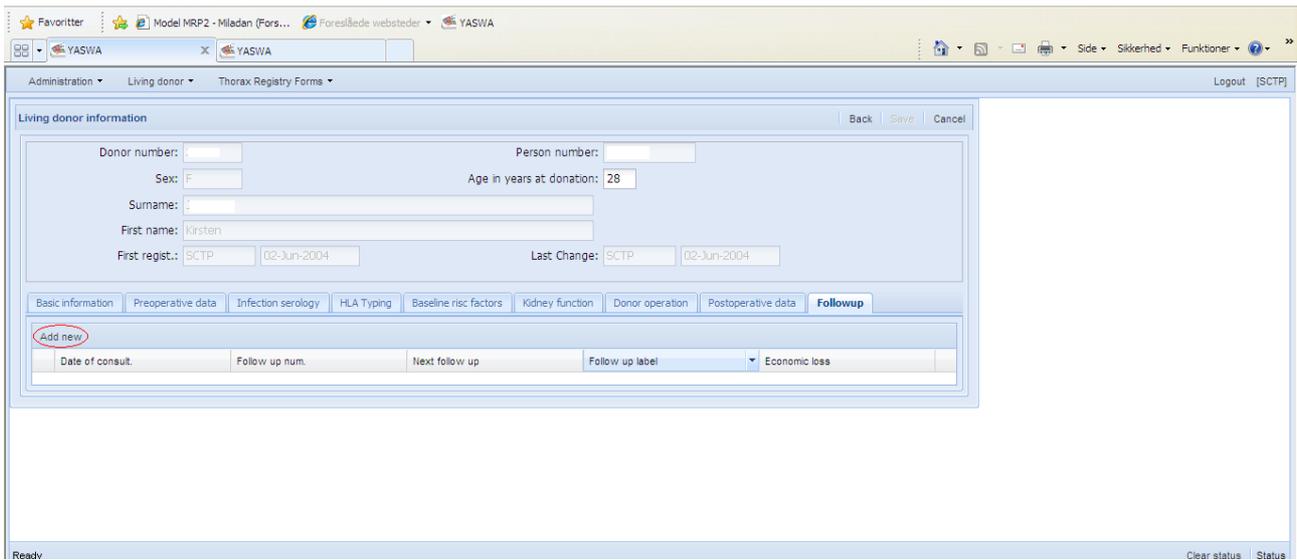

This menu is used for the extended registration of living kidney donor information.

4. Living donor follow up

This menu is used for the numerous registrations of follow up events on a living kidney donor.

It is possible to add a new follow up in two ways:

1. In 'Living donor basic' in the last tab 'follow up' by clicking on the 'Add new' button.

2. or by entering directly into the menu 'Living donor follow up', making an enquiry on the specific donor and afterwards clicking 'add new'.
