

User manual

Paediatric Liver waiting list

1. Enter the Paediatric Liver waiting list

Recipient -> Paediatric Liver waiting list

2. Paediatric Liver waiting list

When you enter the menu all paediatric liver patients active on the waiting list will be displayed.

The screenshot shows the 'Paediatric Liver waiting list' page. At the top right, there are buttons for 'Search', 'Print', and 'Reset'. Below the buttons is a search bar with the placeholder text '[Enter search parameters]'. Underneath the search bar is a dropdown menu labeled 'Cancer diagn.:'. Below the search bar is a table with 12 columns: Scandia..., Cancer..., Wait.days, Cpr, Urgency, Name, ABO, Entry o..., Last change of urge..., Tx-center, Height, and Weight. The table contains 12 rows of patient data. At the bottom of the table, there are navigation controls: 'Page 1 of 1', 'Order by: Cancer diagn. ▼ Wait.days ▼', and 'Displaying 1 - 12 of 12'.

Scandia...	Cancer...	Wait.days	Cpr	Urgency	Name	ABO	Entry o...	Last change of urge...	Tx-center	Height	Weight
→ 15	N: No	1126		T: Transplantable		0	12-Oct-...	12-Oct-2012 00:00	CP: Køb...	87	12

→ 19	N: No	135		T: Transplantable		0	30-Jun-...	30-Jun-2015 00:00	CP: Køb...		8
→ 19	N: No	62		T: Transplantable		AB	11-Sep-...	11-Sep-2015 00:00	CP: Køb...	179	63
→ 19	N: No	19		T: Transplantable		0	23-Oct-...	23-Oct-2015 08:38	OS: Oslo	130	27
→ 19	N: No	6		T: Transplantable		B	05-Nov-...	05-Nov-2015 15:18	OS: Oslo	65	6

The list is default sorted so that recipients whom have cancer, thus highest priority according to the liver exchange rules, will be listed in top. Followed by listing of the waiting time since entry on the liver waiting list.

3. Diagnosis

Liver diagnosis must be registered on the current waiting list entry. If no diagnosis is set, it will be interpreted as Cancer diagnosed = No.

The screenshot shows the 'Waiting list information' form. The 'Generic data' section includes fields for Scandia Number, Waiting list type (LI: Liver), Urgency (T: Transplantable), Date of first urgency (13-Nov-2015), Transplant center, Immunization (NI: Non immunized), Surname, Date of entry (13-Nov-2015), Date of last urgency (13-Nov-2015), Treatment/dialysis center, and Date of last change of Immunization (06-Nov-2015). A dropdown menu is open over the 'Waiting list type' field, showing options: Deceased donor transplantation, Paediatric Liver waiting list, Urgent waitinglist, All Recipients, and Search for suitable kidney recipient. The 'Specific data' section has tabs for Infection serology, Urgency History, and Termination. The 'Primary diagnosis' field is highlighted with a red box and contains the text 'E6: Cancers, Hepatoblastoma'. Below this is the 'Old diagnosis' field and the 'Liver Waitinglist' section with 'Waiting For Liver Number' set to 1 and 'Special requirements' empty.

4. Waiting for combined Liver-kidney transplantation

When a paediatric recipient is waiting for a combined liver-kidney transplantation it is very important that you state on the waiting list if the recipient can use a liver without a kidney or not.

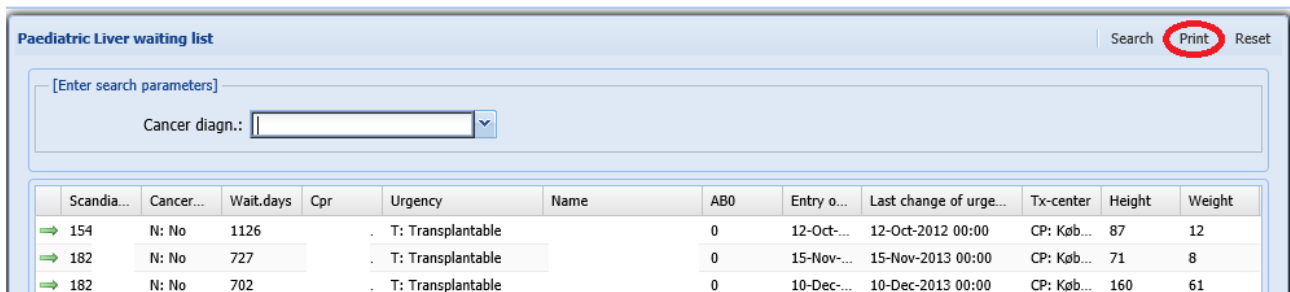

The screenshot shows the 'Waiting list information' form. The 'Generic data' section includes fields for Scandia Number, Waiting list type, Urgency (T: Transplantable), Date of first urgency (31-Oct-2014), Transplant center (ST: Stockholm), Immunization (NI: Non immunized), STAMP Sign Up, Surname, Date of entry (30-Oct-2014), Date of last urgency (23-Dec-2014), Treatment/dialysis center (ST: Dept. of Transplant. Su), and Date of last change of Immunization (18-Aug-2015). A dropdown menu is open over the 'Waiting list type' field, showing options: Deceased donor transplantation, Paediatric Liver waiting list, Urgent waitinglist, All Recipients, and Search for suitable kidney recipient. The 'Specific data' section has tabs for Infection serology, STAMP/LAMP, STAMP Aux, STAMP QC, Urgency History, and Termination. The 'Primary diagnosis' and 'Old diagnosis' fields are empty. The 'Liver/Kidney' section has two dropdown menus: 'Liver Required Only With Kidney' and 'Kidney Required Only With Liver', both set to 'N: No'. The 'Liver Required Only With Kidney' field is highlighted with a red box.

Liver required only with kidney: No -> The paediatric recipient will appear on the list.

Liver required only with kidney: Yes -> The paediatric recipient will not appear on the list.

5. Print/save

If you wish to print/save the list, click on the 'Print' button and a pdf will be generated, which can be printed or saved.
