1. Enter the rotation list to rotate and/or view current status

Enter the ‘Heart rotation’ menu.

When you enter the ‘heart rotation’ system you will find:

- The current status
- The place to make an actual rotation

2. Rotation

1. Choose which center you wish to rotate (=receiving center)
2. Select cause of rotation
3. Optional enter a comment e.g. donor Scandia number. (You do not have to enter the order of the center as this is automatically logged and is found in the rotation log).
When you have registered the correct information click on the 'Rotate' button

Now the displayed rotation list will be update
