

User manual

Liver, lung and heart rotation log

(Liver used as an example)

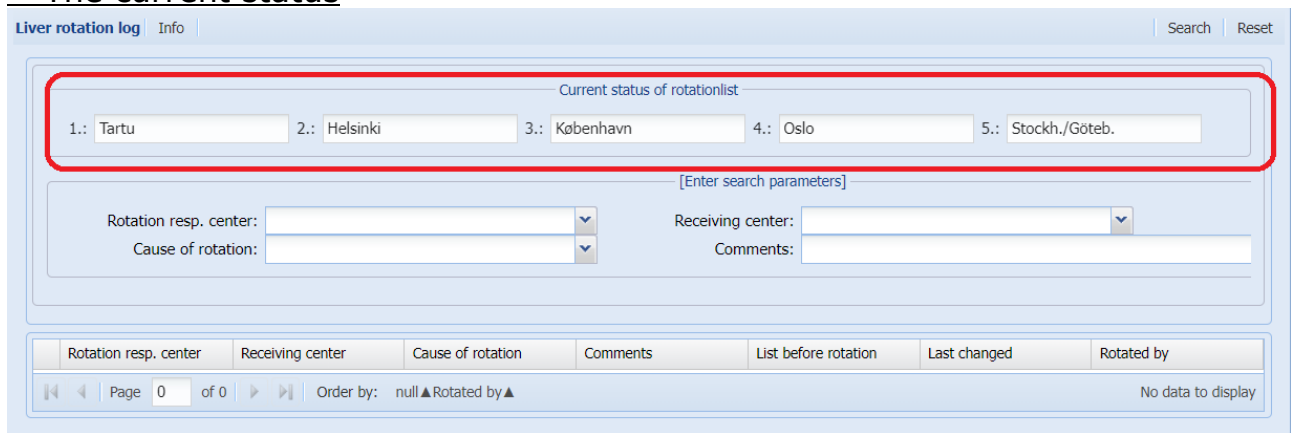

1. Enter the rotation log

Enter the 'Liver rotation log' menu.

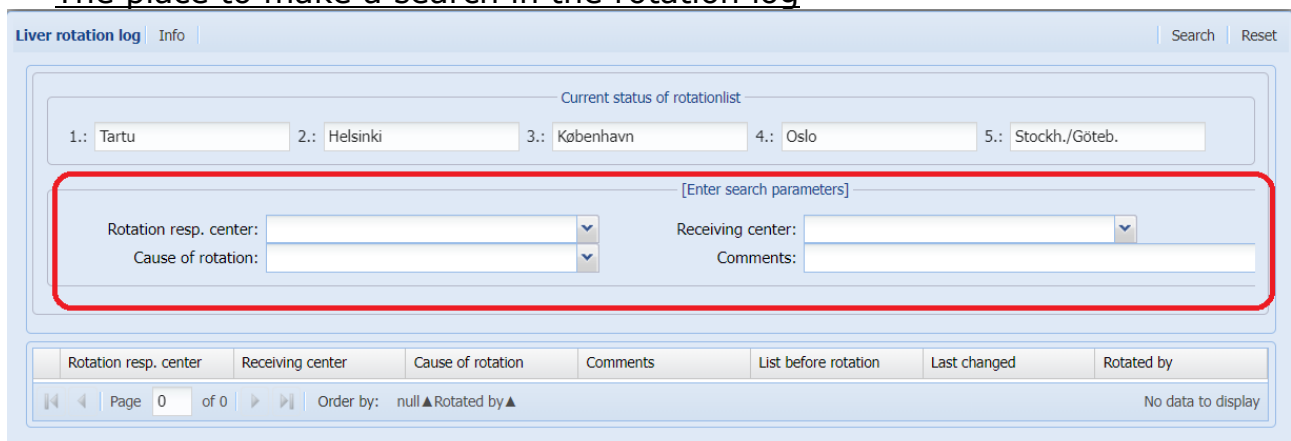

When you enter the 'liver rotation log' you will find:

- The current status

- The place to make a search in the rotation log

2. Search in the rotation log

All rotations

All the fields in the search screen are optional.

If you wish to see all rotations done on the current rotation list, you leave all fields empty and press search.

The screenshot shows the 'Liver rotation log' search interface. At the top right, there are 'Search' and 'Reset' buttons. Below the title bar, there is a section for 'Current status of rotationlist' with five input fields: 1.: Tartu, 2.: Helsinki, 3.: København, 4.: Oslo, 5.: Stockh./Göteb. Below this is a search parameter section with four dropdown menus: 'Rotation resp. center', 'Cause of rotation', 'Receiving center', and 'Comments'. The 'empty' text is visible next to the 'Cause of rotation' dropdown. At the bottom, there is a table header with columns: 'Rotation resp. center', 'Receiving center', 'Cause of rotation', 'Comments', 'List before rotation', 'Last changed', and 'Rotated by'. The page number is 'Page 0 of 0' and the status is 'No data to display'.

Selected rotations

If you wish to look at a specific set of data you can enter 1 to 4 of the optional search parameters

Example 1

The screenshot shows the 'Liver rotation log' search interface with specific search parameters entered. The 'Rotation resp. center' is set to 'HE: Helsinki', 'Cause of rotation' is 'NP: No suitable patient', and 'Receiving center' is 'AR: Aarhus'. The 'Comments' field is empty. The table header is the same as in the previous screenshot. The page number is 'Page 0 of 0' and the status is 'No data to display'.

Example 2

The screenshot shows the 'Liver rotation log' search interface with search parameters and a table of results. The 'Rotation resp. center' is empty, 'Cause of rotation' is empty, and 'Receiving center' is empty. The 'Comments' field contains '%78%'. The table below shows three rows of data:

Rotation resp. center	Receiving center	Cause of rotation	Comments	List before rotation	Last changed	Rotated by
→ OS: Oslo	ST: Stockholm	OK: Organ accepted	liver from donor 78920		06-Aug-2013 06:00	OPSSURSOS
→ OS: Oslo	ST: Stockholm	OK: Organ accepted	donor 78300 from Oslo		23-Jun-2013 11:50	OPSSURSOS
→ OS: Oslo	ST: Stockholm	OK: Organ accepted	donor 78269 Oslo		21-Jun-2013 10:15	OPSSURSOS

The page number is 'Page 1 of 1' and the status is 'Displaying 1 - 3 of 3'.

3. View details on rotation
