

User manual

Lung rotation

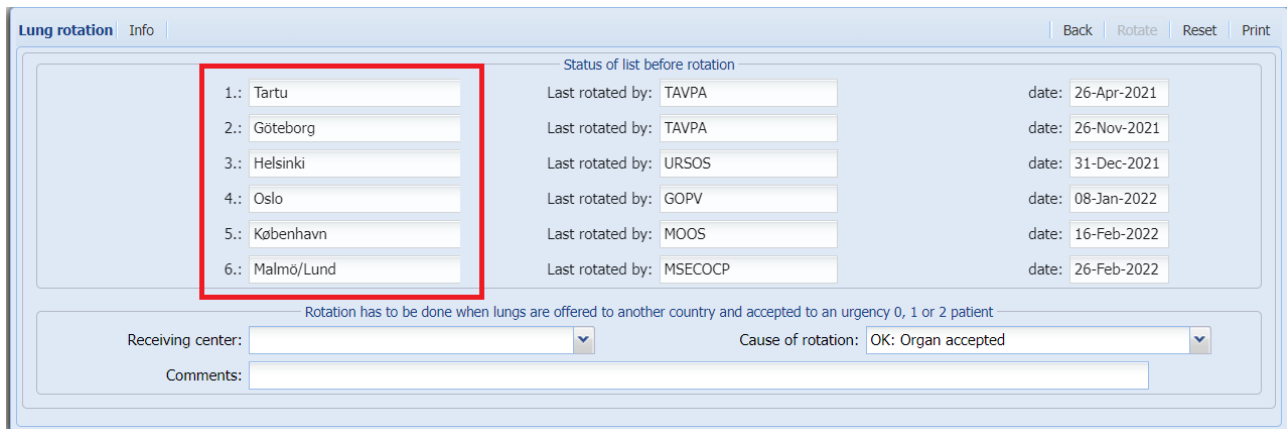

1. Enter the rotation list to rotate and/or view current status

Enter the 'Lung rotation' menu.

When you enter the 'lung rotation' system you will find:

- The current status

A screenshot of the 'Lung rotation' system interface. The page title is 'Lung rotation' with an 'Info' link. There are buttons for 'Back', 'Rotate', 'Reset', and 'Print'. The main content area is titled 'Status of list before rotation' and contains a table with 6 rows. The first column lists countries, and the second column lists the last rotated by and the date. A red box highlights the first three rows of the table. Below the table, there is a note: 'Rotation has to be done when lungs are offered to another country and accepted to an urgency 0, 1 or 2 patient'. There are also fields for 'Receiving center:', 'Cause of rotation:' (set to 'OK: Organ accepted'), and 'Comments:'.

Country	Last rotated by	date
1.: Tartu	TAVPA	26-Apr-2021
2.: Göteborg	TAVPA	26-Nov-2021
3.: Helsinki	URSOS	31-Dec-2021
4.: Oslo	GOPV	08-Jan-2022
5.: København	MOOS	16-Feb-2022
6.: Malmö/Lund	MSECOCP	26-Feb-2022

- The place to make an actual rotation

The screenshot shows the 'Lung rotation' form. At the top, there are buttons for 'Back', 'Rotate', 'Reset', and 'Print'. Below this is a table titled 'Status of list before rotation' with the following data:

Order	Center	Last rotated by	date
1.	Tartu	TAVPA	26-Apr-2021
2.	Göteborg	TAVPA	26-Nov-2021
3.	Helsinki	URSOS	31-Dec-2021
4.	Oslo	GOPV	08-Jan-2022
5.	København	MOOS	16-Feb-2022
6.	Malmö/Lund	MSECOCP	26-Feb-2022

Below the table is a red-bordered box containing the rotation action fields:

- Receiving center: [dropdown menu]
- Cause of rotation: [dropdown menu with 'OK: Organ accepted' selected]
- Comments: [text input field]

Text above the rotation fields: 'Rotation has to be done when lungs are offered to another country and accepted to an urgency 0, 1 or 2 patient'

2. Rotation

1. Choose which center you wish to rotate (=receiving center)
2. Select cause of rotation
3. *Optional* enter a comment e.g. donor Scandia number. (You do not have to enter the order of the center as this is automatically logged and is found in the rotation log).

This screenshot is identical to the one above, but with red boxes highlighting the rotation action fields and their corresponding instructions:

- A red box labeled '1.' is placed over the 'Receiving center' dropdown menu.
- A red box labeled '2.' is placed over the 'Cause of rotation' dropdown menu.
- A red box labeled '3.' is placed over the 'Comments' text input field.

The text 'Rotation has to be done when lungs are offered to another country and accepted to an urgency 0, 1 or 2 patient' is also visible above the rotation fields.

When you have registered the correct information click on the 'Rotate' button
