

Research Grant Report Form

Name and origin of applicants:

Allan Rasmussen, Rigshospitalet, Denmark
Andreas A. Rostved, Rigshospitalet, Denmark
Helle Bruunsgaard, Rigshospitalet, Denmark
Pål Dag Line, Rikshospitalet, Oslo
William Bennet, Sahlgrenska, Gothenburg
Bo-Göran Ericzon, Karolinska, Stockholm
Helena Isoniemi, Helsinki University Central Hospital

Purpose of research project granted:

Donor Specific HLA alloantibodies in Liver Transplantation: a prospective blinded multicenter prognostic study

Amount granted:

220.000 DKK

Report of scientific progress:

The study is ongoing. All 5 liver transplant centres in Scandinavia are including patients. By the 1. of August 2018 we have included 360 patients. This is a little behind schedule according to the protocol.

The Grant from Scandiatransplant has been used to support the funding of study nurses. The first publication is expected after inclusion of approx. 750 patients. Obviously Scandiatransplant will be acknowledged in all publications and presentations.
