Content

- 1 Introduction and purpose
- 2 Updates in existing YASWA modules
- 4 The articles of the Association Scandiatransplant

Purpose

By this information letter, we wish to communicate to you about status and progress related to the database, collaboration with groups related to Scandiatransplant and on-going working projects.

We hope that you will read it and share the information with whom it might concern.

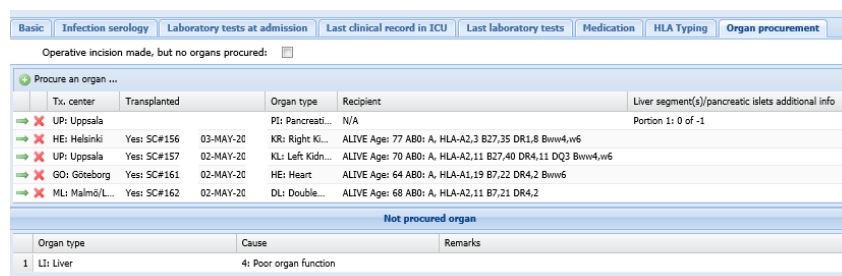

Do not hesitate to contact us for further information, ideas, problems and help.

Updates in existing YASWA modules

Additional recipient information in organ procurement

In 'Deceased Donor' -> 'Organ procurement' additional display of recipient information has been added. The additional recipient information displayed is age at transplantation and survival status. The information has been added as a consequence of restricted access to data on recipients from other countries.

Operative incision made, but no organs procured: <input type="checkbox"/>						
Procure an organ ...						
	Tx. center	Transplanted	Organ type	Recipient	Liver segment(s)/pancreatic islets additional info	
⇒	X UP: Uppsala		PI: Pancreati...	N/A	Portion 1: 0 of -1	
⇒	X HE: Helsinki	Yes: SC#156	03-MAY-20	KR: Right Kid...	ALIVE Age: 77 AB0: A, HLA-A2.3 B27.35 DR1.8 Bwv4.vw6	
⇒	X UP: Uppsala	Yes: SC#157	02-MAY-20	KL: Left Kidn...	ALIVE Age: 70 AB0: A, HLA-A2.11 B27.40 DR4.11 DQ3 Bwv4.vw6	
⇒	X GO: Göteborg	Yes: SC#161	02-MAY-20	HE: Heart	ALIVE Age: 64 AB0: A, HLA-A1.19 B7.22 DR4.2 Bwv6	
⇒	X ML: Malmö/L...	Yes: SC#162	02-MAY-20	DL: Double...	ALIVE Age: 68 AB0: A, HLA-A2.11 B7.21 DR4.2	
Not procured organ						
	Organ type	Cause		Remarks		
1	LI: Liver	4: Poor organ function				

Change of access to view potential donors

Definition of potential deceased donor (Donation realized: P - Potential): A person whose clinical condition is suspected to fulfill brain death criteria, but is not (yet) accepted as a donor.

Access to view potential donors from other countries has been restricted, thus you are now only able to look up potential donors from your own country.

Unless an organ offer has been sent out, then all countries can see the information on the specific potential donor.

Current status on access to recipient and donor information

Recipient information

You are able to access data on all recipients in ScandiTransplant, whom are active and temporarily on hold on the waiting list.

When it comes to patients not currently on the waiting list, you can only see patients with your user nationality and patients linked to a transplant center in your own country.

Access to data

Deceased donor information

On eligible, actual and deceased donors you can access all information within 6 months after date of donation no matter country. Hereafter you only have access to donors from you own country and donors from whom your center has received organs.

Access to view potential donors is limited to potential donors from your own country. Unless an organ offer has been sent out, then all countries can see the information on the specific potential donor.

Transplantability calculation on kidney patients

New 'STAMP' status for transplantability calculation

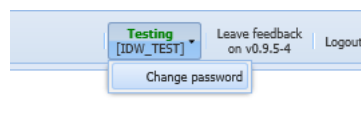

Some centres have wished to have a possibility to make a transplantability calculation on patients that might never be relevant for LAMP or STAMP. For these cases a new 'calculation' value has been added to the status field.

The screenshot shows a web interface for donor information. The 'STAMP/LAMP' tab is selected. Under 'Acceptable mismatches', there are dropdown menus for HLA-A, HLA-B, HLA-Cw, HLA-DR, and HLA-DQ. Below this, the 'Date of acceptance' is 22-Mar-2016. The 'Status' dropdown menu is open, showing options: 'A: Active', 'C: Calculation', 'I: Inactive', and 'L: Local programme'. The 'Sign up' is set to 'No'. At the bottom, 'Calculated transplantability' shows 'STAMP match: 0.20 %' and 'Normal match: 0.00 %'. The 'Date of Last Calc.' is 04-Apr-2016.

Change of password

If you wish to change your password to YASWA you can do so by entering the 'change password' menu.

How to change password

Your new password is evaluated and must be considered strong to be accepted.

The Articles of the Association Scandiatransplant

Suggestion is ready

The working group on articles (WGA), which was formed in 2014, has now finalized the work with a major revision of the Scandiatransplant articles. The suggestion will be presented at the Scandiatransplant Council of representatives meeting May 11, 2016.

The suggestion is now available on the Scandiatransplant homepage for all to read:
