

User manual

Liver rotation

1. Enter the rotation list to rotate and/or view current status

Enter the 'Liver rotation' menu.

When you enter the 'liver rotation' system you will find:

- The current status

A screenshot of the 'Liver rotation' system interface. The page title is 'Liver rotation' with an 'Info' tab. There are buttons for 'Back', 'Rotate', 'Reset', and 'Print'. The main content area is titled 'Status of list before rotation' and contains a table with five rows of data. The first column lists locations, the second lists the last rotator, and the third lists the date. A red box highlights the first column. Below the table, there is a dropdown menu for 'Receiving center' and a dropdown menu for 'Cause of rotation' (set to 'OK: Organ accepted'). A 'Comments' field is also present.

| Location | Last rotated by | date |
|--------------------|-----------------|-------------|
| 1.: Tartu | SIVA | 09-Dec-2019 |
| 2.: Helsinki | ARRC | 28-Nov-2021 |
| 3.: København | URSOS | 08-Jan-2022 |
| 4.: Oslo | SIVA | 27-Jan-2022 |
| 5.: Stockh./Göteb. | ODLB | 14-Feb-2022 |

- The place to make an actual rotation

| 2.: Helsinki | Last rotated by: ARRC | date: 28-Nov-2021 |
| 3.: København | Last rotated by: URSOS | date: 08-Jan-2022 |
| 4.: Oslo | Last rotated by: SIVA | date: 27-Jan-2022 |
| 5.: Stockh./Göteb. | Last rotated by: ODLB | date: 14-Feb-2022 |

Rotation has to be done when a spare liver is offered and accepted of another country

Receiving center: Cause of rotation: OK: Organ accepted

Comments:

2. Rotation

1. Choose which center you wish to list rotate (=receiving center)
2. Select cause of rotation
3. *Optional* enter a comment e.g. donor Scandia number. (You do not have to enter the order of the center as this is automatically logged and is found in the rotation log).
