Pancreas 2016.....	40
Transplanted pancreas pmp per year	41

Introduction

In 2016 the old Scandiatransplant server was finally closed down and the whole IT-system with the new YASWA user interface is now running on modern updated virtual servers. The number of utilized donors is still increasing a little, but the number of transplanted patients seems to have stabilized over the last few years. The Scandiatransplant Council of Representatives adopted a thorough revision of the Articles of the Association Scandiatransplant, which a working group had prepared through the preceding 2 years. Implementing a new model for responsibility and ownership of data was initiated and data processor agreements have been signed with some of the member hospitals. Finally, a suggestion from the Scandiatransplant Board to report SAE/SAR¹ to the health authorities, through the Scandiatransplant IT-system, was adopted by the health authorities.

Organisation

Scandiatransplant is the Organ Exchange Organisation (OEO) of the five Nordic countries: Denmark, Finland, Iceland, Norway and Sweden. It is an association and the members are the 10 hospitals performing organ transplantation in these countries. According to the articles the main purposes of the association are:

- to serve as a common organ exchange organisation and allocation resource for its member hospitals including kidney, liver, heart, lung, pancreas, pancreatic islet, cellular, intestinal and multivisceral transplantation. This is done transparently, using ethical principles and in full compliance with the national legislation of the members' countries,
- to maintain and operate a common waiting list for transplantation,
- to ensure complete traceability from organ donors to patients,
- to maintain and operate follow-up registries of transplanted patients,
- to maintain and operate follow-up registries of living donors,
- to serve as a collaborative platform through specialized working groups and advisory groups in order to facilitate best practice recommendations and policies optimizing retrieval, allocation and transplantation of organs, and
- to form a collaborative network for the member hospitals to promote research and development related to organ donation, allocation and transplantation.

The members elect Representatives to the Council, which is the association's supreme authority. It approves the members of the board, which represent all the countries, and is responsible for the day to day operations of the association. Suggestions for the activity and allocation rules are brought forward by a number of groups and committees.

¹ SAE/SAR: Serious Adverse Events / Serious Adverse Reactions

During 2016 the council had 39 representatives. The Chairman of the Board through the past 6 years Krister Höckerstedt was replaced in May by Bo-Göran Ericzon, Stockholm. The Board members were Lars Wennberg, Sweden; Pål-Dag Line, Norway; Finn Gustafsson, Denmark; and Magrét Andésdóttir, Iceland, who was replaced by Runolfur Palsson and Helena Isoniemi, Finland, who was replaced by Arno Nordin.

The Scandiatransplant Office is located at Aarhus University Hospital, Denmark. The primary task of the office is to maintain and develop the IT-system holding data on all patients enlisted for organ transplantation in the Nordic countries. It is accessible 24/7 for all health personnel at the member hospitals performing organ retrieval and transplantation ensuring correct allocation of organs. In addition to this primary task the Scandiatransplant Office takes care of many other tasks such as running follow-up registries, educate and support users, arrange meetings for council, board, groups and committees, comply with demands from owners, researchers, authorities and the public, and participate in meetings with local health competent authorities, EU-commission and EU projects.

At the end of 2016 the staff consisted of 8 people, 6 full-time, the Secretary and the Medical Director, are working part-time. The total expenses were kept within the budget (5.5 mill. DKK ~ 740.000 EUR). The expenses in Scandiatransplant are payed by the member hospitals.

Activities in the organisation in 2016

The majority of the work done at the Office has been customizing the IT-system to the user's wishes and optimizing security and functionality of the system. The Office has also put resources into education and guidance in relation to the new IT-system. The old Solaris server was finally shut down and the whole system is now running on updated virtual servers in the environment of the IT systems of Central Region Denmark.

In May 2016 the Working Group for revision of the Articles of the Association Scandiatransplant presented the result of 2 years work to the Council of Representatives, which adopted the revisions. The old Articles were outdated and in many aspects not in line with the responsibilities and function of Scandiatransplant. The main medical professional work in Scandiatransplant is done in the groups, but they were not mentioned in the old Articles. Neither was the Scandiatransplant Office. The revised articles describe both the groups and the Office. The purposes of Scandiatransplant have been reformulated and a possibility for associate membership of Scandiatransplant has been introduced. The Board has decided to recommend associate membership for Tartu University Hospital in Estonia at the Council meeting in 2017.

In 2016 work on implementing a new model for the responsibility of data was started. In the past, the data responsible authority for the data in Scandiatransplant was Central Region Denmark. The new model defines that the Hospitals are responsible for their data. This is a way to ensure the legality of the data according to all countries. An agreement on data handling will have to be signed between Scandiatransplant and each member Hospital. Data processor agreements were signed with Helsinki, Odense and Aarhus and a sub-data processor agreement was signed with the IT-department of Central Region Denmark. Work is ongoing with the rest of the member Hospitals.

At the annual meeting with the five countries' health authorities in September the Board's suggestion to report SAE/SAR in relation to transplantation to the health authorities, as demanded by the EU-directive 2010/53, through the Scandiatransplant IT-System, was adopted. This solution is logic and practical, since many of the data needed for the report would already be in the Scandiatransplant database.

Scandiatransplant has participated in the meetings of the competent authorities and the EU-commission on matters of organ transplantation. The main reason has been to balance the participation of Scandiatransplant in the EU projects. The Office has adopted a policy of trying to have at least one person from the Office present at every meeting in the groups in Scandiatransplant to ensure continuity and updated information on decisions and wishes from the users.

Transplantation and organ procurement activity

The year 2016 has been a good year for organ transplantation in the five Nordic countries with still an increase in the number of utilized donors to the highest level yet. In this report we have chosen to present some key figures and compare some of them with data from 2007 and onwards showing the last ten year period.

First we looked at the total number of transplanted organs and compared with the number of patients on the waiting list at the end of the year. Although 2016 was the year with most utilized donors the number of transplantations were on the same level as the previous couple of years. The demand has increased so that at the end of 2016, there was the highest number of patients on the waiting list.

The competent authorities of the Nordic countries have requested data on import/export between Scandiatransplant and the other European organ exchange organisations as well as data on import/export within the Nordic countries. We therefore give a thorough presentation of these data.

Finally, data on waiting list and transplantation activities for the different organs are presented in the same manner as the previous years.

Further presentation of Scandiatransplant data is available in the annual slideshow:

<http://www.scandiatransplant.org/resources/dias2016.pdf>

In relation with the statistics presented please keep in mind that data subjects to change based on future data submission and/or correction.

Total number of organs transplanted and patients waiting for organs within Scandiatriplant

Year	Number of waiting patients ²	Number of transplanted organs ³
2007	1889	1581
2008	1874	1635
2009	1936	1710
2010	2117	1686
2011	2093	1857
2012	2116	1823
2013	2211	1841
2014	2280	2009
2015	2402	2005
2016	2487	1999

² Including patients waiting for Kidney, Liver, Liver-kidney, Heart, Heart-lung, Single lung, Double lung, Kidney-pancreas, pancreas and pancreatic islets

³ Including kidney, liver, heart, heart-lung, lung, pancreas and pancreatic islet

Utilized deceased donors⁴ in numbers in Scandiatransplant

Year	Denmark	Finland	Iceland	Norway	Sweden	Scandiatransplant

Intestine exported and imported²² between the Scandiatransplant countries and other EOEO's

	Import/export	Import/export EOEO
2007	0	0
2008	2 from Norway to Sweden	0
2009	0	0
2010	0	0
2011	0	0
2012	0	0
2013	0	0
2014	0	1 from EOEO to Sweden
2015	0	0
2016	1 from Denmark to Sweden	0

²² Only intestine used for transplantation is included

Kidneys 2016

Transplanted kidneys pmp²³ from deceased donors per year

Year	Denmark	Finland	Norway	Sweden	Scandiatransplant
2007	21,0	31,8	36,9	27,9	28,6
2008	22,2	26,5	37,6	30,7	28,9
2009	25,6	32,6	39,0	24,6	28,9
2010	23,0	30,7	36,8	21,6	26,4
2011	24,3	30,5	46,2	26,6	30,4
2012	24,1	34,7	43,7	25,5	30,3
2013	18,9	32,4	40,0	28,1	29
2014	24,2	41,1	40,2	29,8	32,6
2015	26,7	41,7	36,7	30,0	32,6
2016	26,3	43,6	36,9	29,1	32,6

²³ pmp: per million population

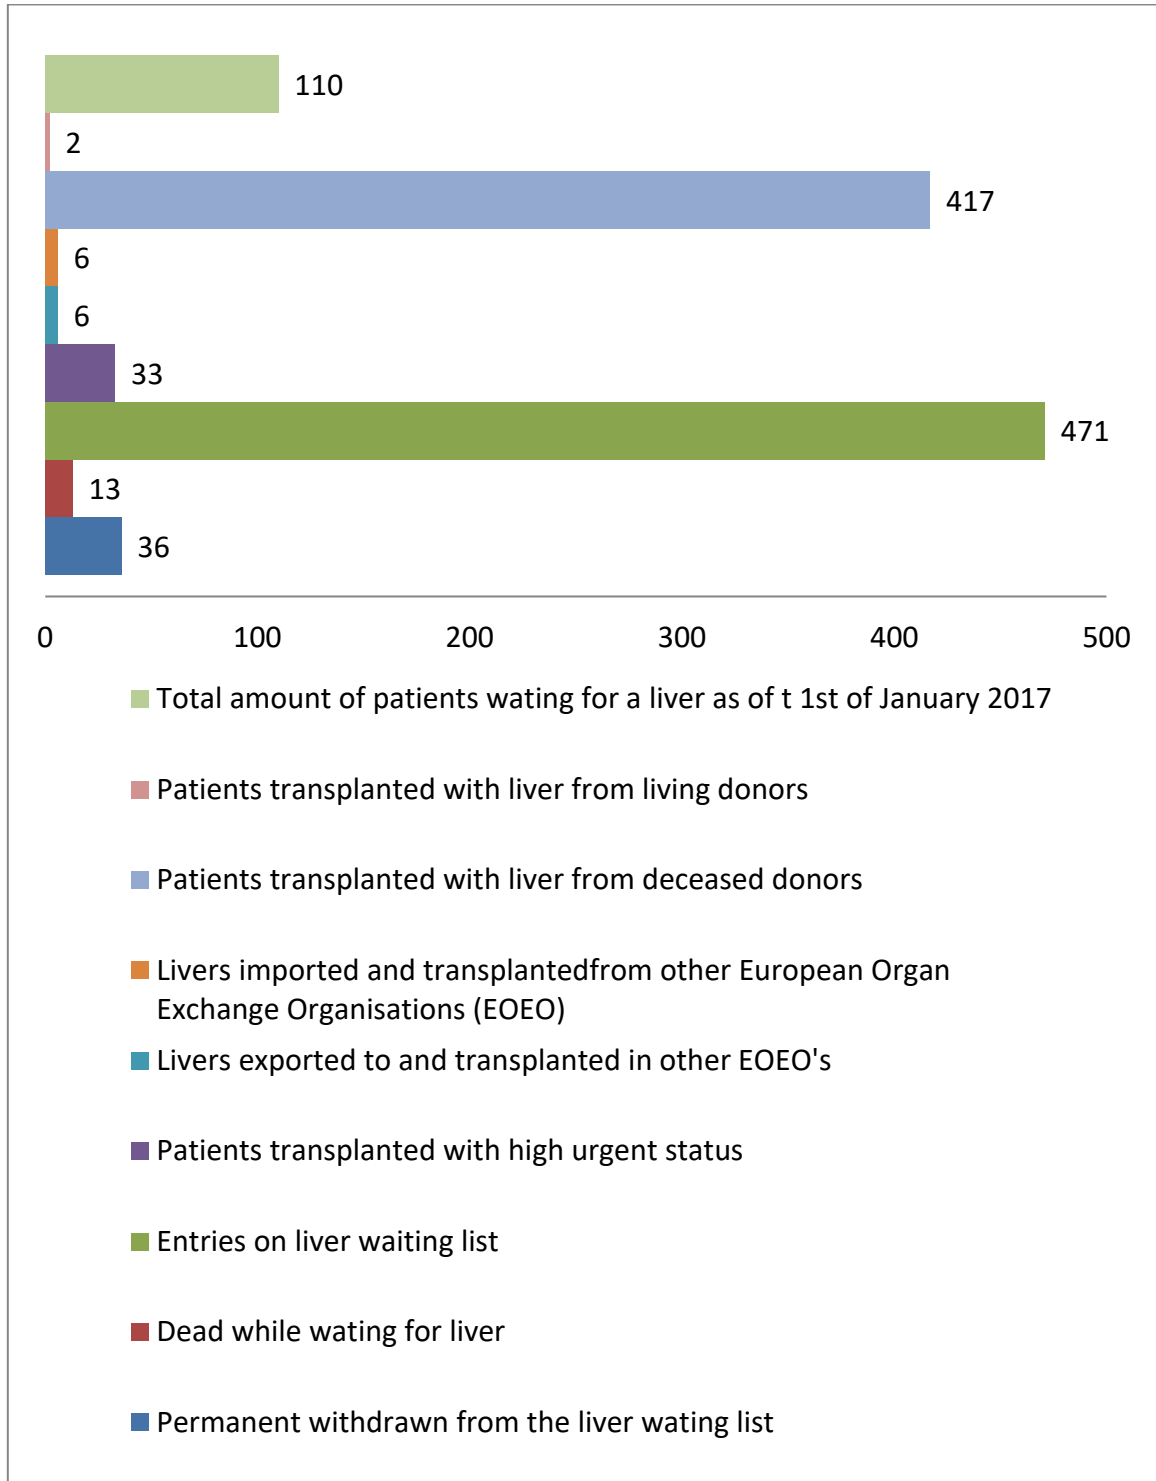

Transplanted kidneys pmp²⁴ from living donors per year

Year	Denmark	Finland	Iceland	Norway	Sweden	Scandiatransplant
2007	10,2	1,0	22,4	18,2	13,4	11,1
2008	13,5	1,7	15,6	20,5	14,8	12,8
2009	16,3	1,1	21,9	21,6	17,7	14,7
2010	18,1	2,1	15,7	17,0	17,9	14,4
2011	18,0	2,4	34,5	14,7	19,5	14,8
2012	13,5	2,0	18,6	16,3	16,3	12,7
2013	18,7	2,4	24,7	13,5	15,8	13,3
2014	19,2	2,7	24,6	13,3	15,6	13,4
2015	20,6	2,7	21,3	12,1	13,3	12,6
2016	18,6	4,0	14,8	9,0	13,5	11,8

²⁴ pmp: per million population

Livers 2016

Transplanted livers (Deceased and living donors) pmp²⁵ per year

Year	Denmark	Finland	Norway	Sweden	Scandiatransplant
2007	7,9	10,0	15,3	14,8	12,2
2008	8,0	8,8	16,5	15,8	12,6
2009	7,3	9,0	17,0	15,7	12,5
2010	8,3	9,3	18,2	14,6	12,6
2011	9,6	10,4	18,0	16,5	13,7
2012	8,4	9,6	20,1	16,1	13,6
2013	7,4	9,0	21,8	16,8	13,9
2014	8,2	10,8	19,5	18,8	14,7
2015	10,1	14,0	16,5	18,3	15,1
2016	10,1	11,1	19,1	20,0	15,6

²⁵ pmp: per million population

Hearts 2016

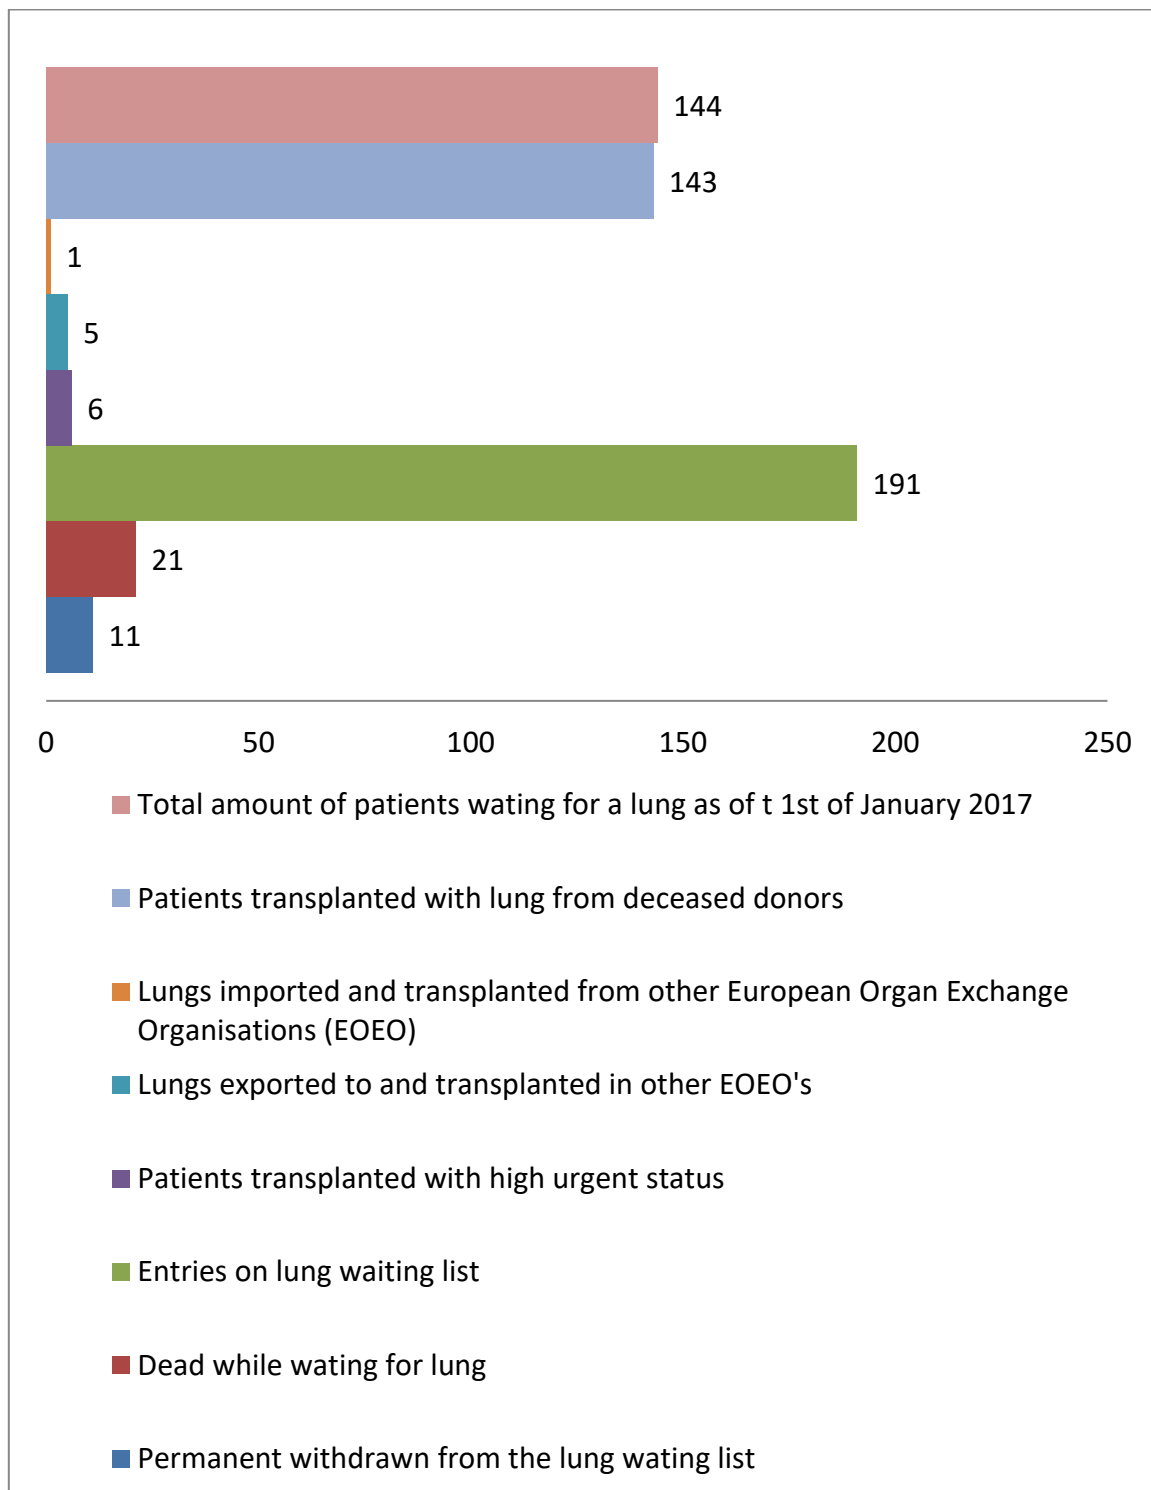

Transplanted hearts pmp²⁶ per year

Year	Denmark	Finland	Norway	Sweden	Scandiatransplant
2007	5,3	3,4	7,2	5,0	5,1
2008	3,6	4,0	4,5	4,8	4,8
2009	4,9	2,4	5,6	5,9	4,8
2010	3,9	4,1	6,3	6,0	5,1
2011	5,2	3,3	5,9	5,4	5,0
2012	4,6	4,1	6,4	4,8	4,9
2013	3,0	3,9	7,3	5,7	5,0
2014	5,6	4,4	6,6	6,9	6,0
2015	4,7	4,9	7,1	6,4	5,8
2016	5,0	5,6	4,0	6,4	5,4

²⁶ pmp: per million population

Lungs 2016

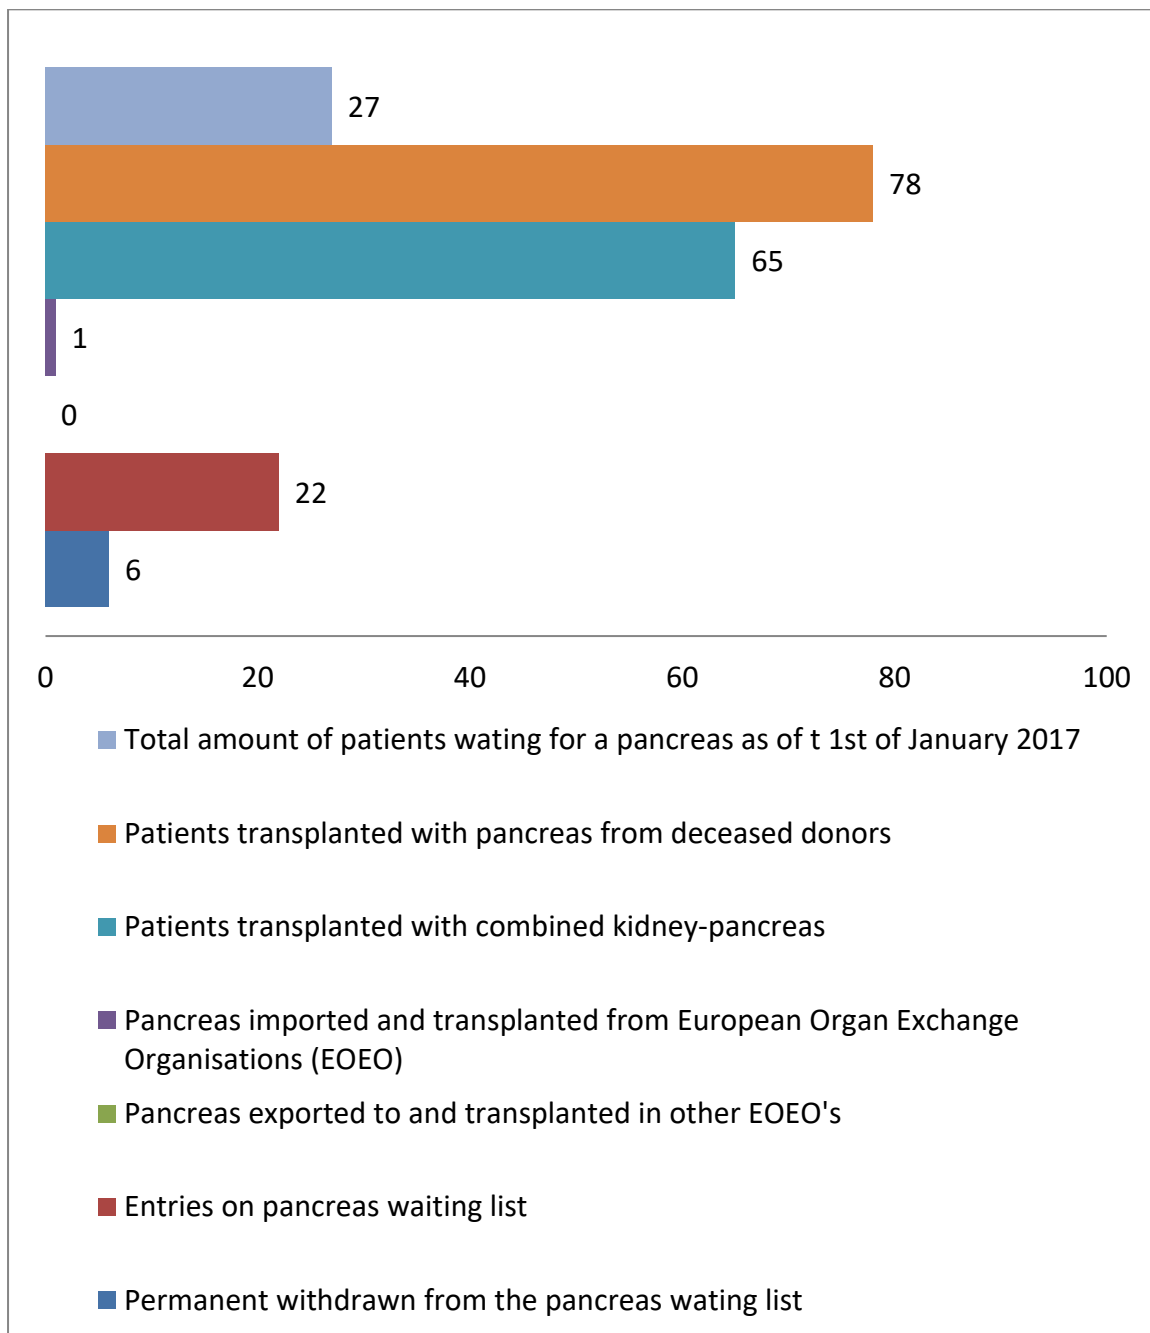

Transplanted lungs (Double, single and heart-lung) pmp²⁷ per year

Year	Denmark	Finland	Norway	Sweden	Scandiatransplant
2007	6,0	2,8	6,1	4,7	4,8
2008	3,3	2,3	6,3	5,6	4,5
2009	5,3	2,6	5,0	5,5	4,7
2010	5,5	2,8	6,6	5,4	5,0
2011	5,4	4,3	5,7	6,4	5,5
2012	5,3	5,0	5,6	6,3	5,6
2013	5,4	2,8	6,5	6,0	5,3
2014	5,1	3,1	6,4	6,7	5,5
2015	6,1	4,4	6,5	4,9	5,3
2016	5,0	3,3	6,5	6,2	5,3

²⁷ pmp: per million population

Pancreas 2016

Transplanted pancreas pmp²⁸ per year

Year	Denmark	Finland	Norway	Sweden	Scandiatransplant
2007	0	0	3,0	1,1	1,0
2008	0	0	2,1	1,1	0,8
2009	0	0	3,3	2,2	1,4
2010	0	0,4	3,1	2,8	1,7
2011	0	0,2	4,0	3,7	2,2
2012	0	1,5	5,6	3,0	2,5
2013	0	1,8	7,7	4,0	3,3
2014	0	2,7	6,1	4,0	3,2
2015	0,4	3,1	6,0	3,1	3,0
2016	1,2	4,9	3,8	2,4	2,9

²⁸ pmp: per million population
