Scandiatransplant

- Scandiatransplant is the organ exchange organization for the Nordic countries Denmark, Finland, Iceland, Norway and Sweden. It covers a population of about 25 million inhabitants. It is owned by the ten hospitals performing organ transplantation in these countries. The office is located at Århus University Hospital, Denmark.

Purpose of Scandiatransplant

- Effect the exchange of organs and tissue
- Operate a database and communicate information
- Promote the provision of human organs and tissue for transplantation
- Support scientific activities
- Cooperate with national competent authorities, EU, and other transplantation organisations

Scandiatransplant organisation

Awarded Grants in 2014

Research Grants

- Principal investigator: Kari Nytrøen. “Effect of exercise after heart transplantation – a Nordic multicenter population based study”. Supported with 40.000 €.

Travel Grant

- Einar Gude: 15,000 DDK.
- Per Arne Bakken, Stein Foss & Monika Storrø: 15,000 DDK .
- Tanja Hölvold & Åsa Svärd: 10,000 DDK.
- Hans Henrik Lawaetz Schultz: 10,000 DKK.
- Margret B. Andresdottir: 7,500 DDK.
- Ilkka Helanterä: 15,000 DKK

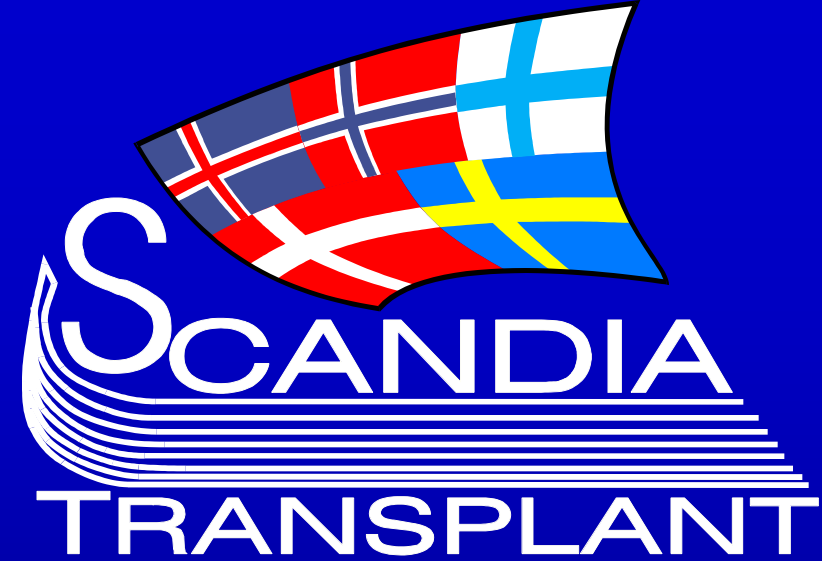

Scandiatransplant Office Activities 2014 (1)

- Number 1 priority: Changing to new (YASWA) system:
 - Very crucial due to unsupported software and old hardware.
 - Increase user friendliness and functionality.
- Kept the "old" system running to ensure correct organ allocation 24/7.
- Huge amounts of programming and testing done.

Scandiatransplant Office Activities 2014 (2)

- Educated users and complied with demands from users, owners, researchers and the public.
- Arranged meetings for groups, committees, board and council of representatives.
- Participated in the STS 2014. Engaged in revision of the articles according to mandate from the council 2014.
- Participated in meetings with Nordic competent authorities, EU-commission and EU projects.
- Taking care of finance and personnel.

Figures for 2014

Founded 1969 by the Nordic Council of Ministers

Organ procurement and transplantation activities in Scandiatriansplant

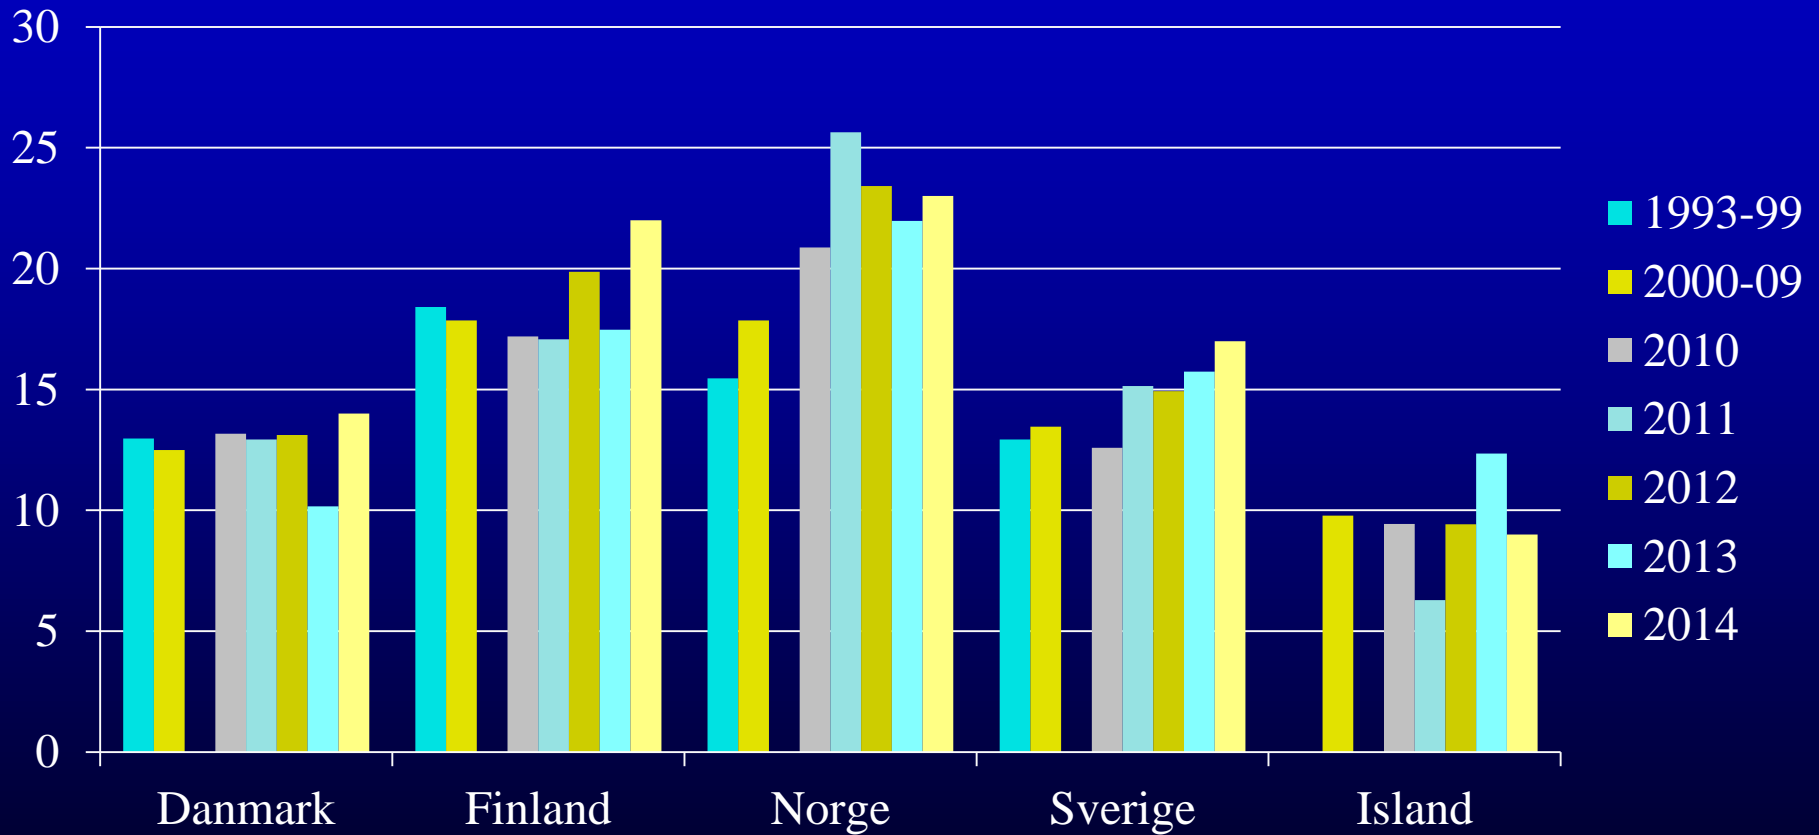

Scandiatransplant 2014

- 484 Utilized deceased donors (18.36 PMP)
- organ transplants performed
 - 1212 kidneys (352 were living related)*
 - 388 livers (6 were living related – 5 were domino)*
 - 157 hearts (0 were domino)*
 - 133 lungs including heart/lung*
 - 84 pancreas including kidney/pancreas*
- 2272 patients on waiting list at end 2014

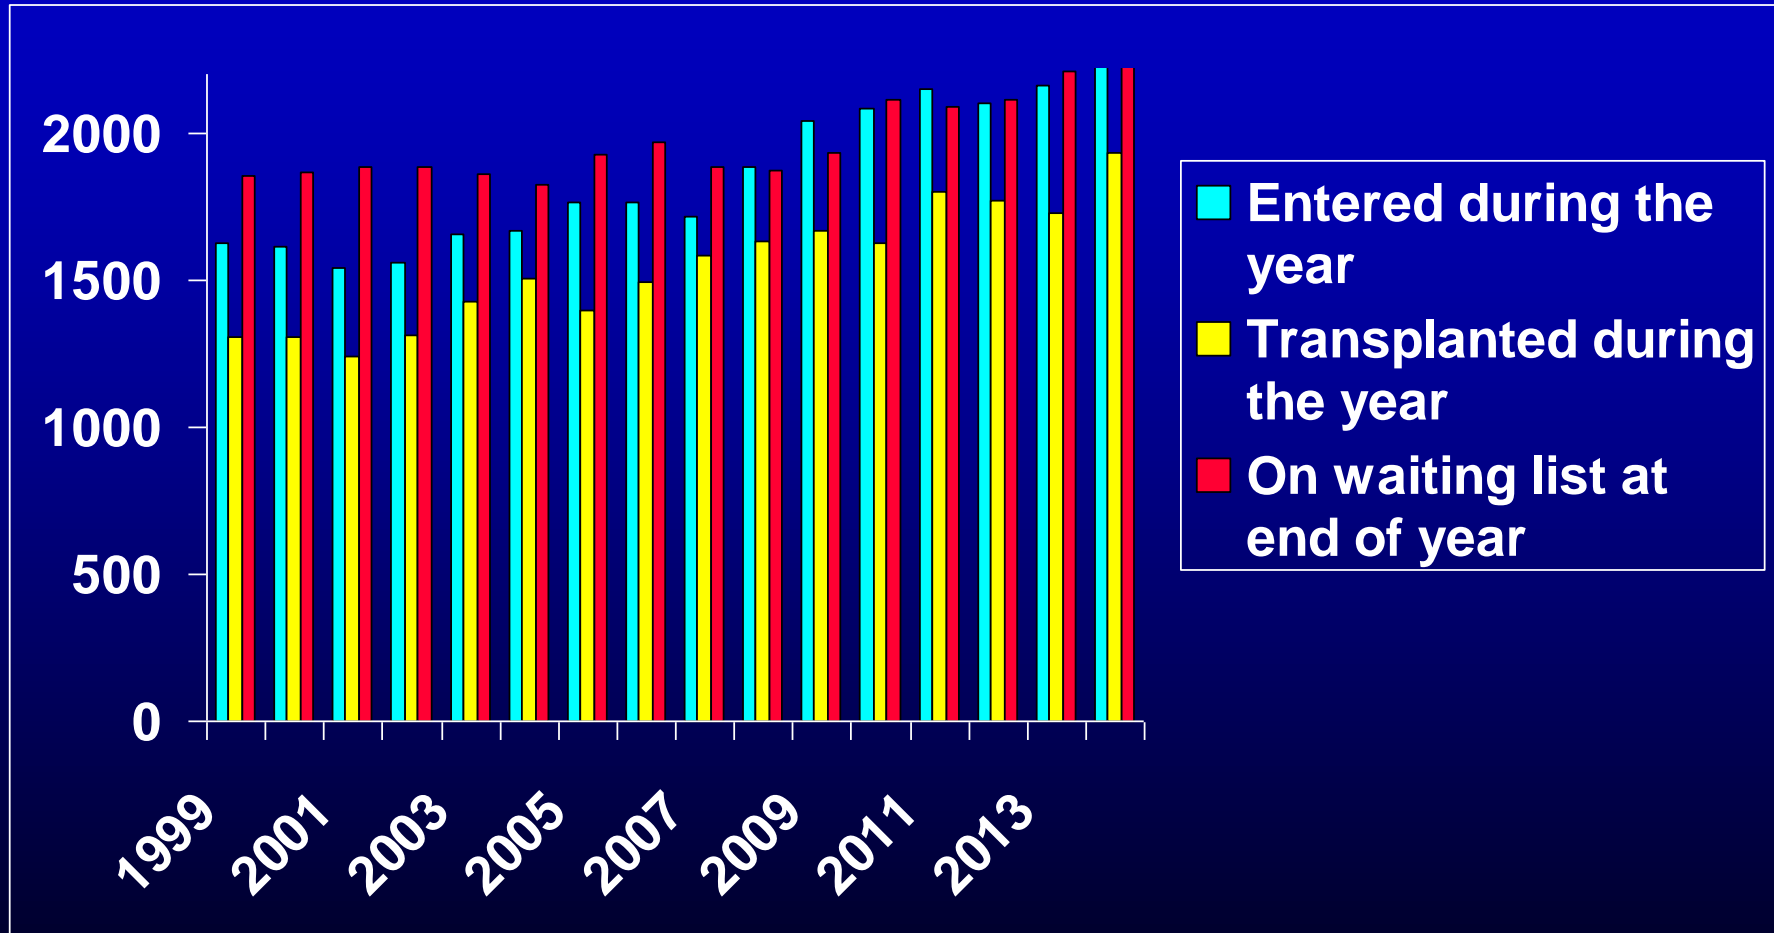

Patients entered on waiting list during 2014 (2013 figures)

● <i>Kidney:</i>	<i>1379 (1344)</i>
● <i>Liver</i>	<i>451 (392)</i>
● <i>Heart</i>	<i>191 (156)</i>
● <i>Lung</i>	<i>157 (166)</i>
● <i>Pancreas</i>	<i>27 (24)</i>
● <i>Kidney+Pancreas</i>	<i>62 (69)</i>
● <i>Liver+kidney</i>	<i>8 (10)</i>
● <i>TOTAL</i>	<i>2275 (2104)</i>

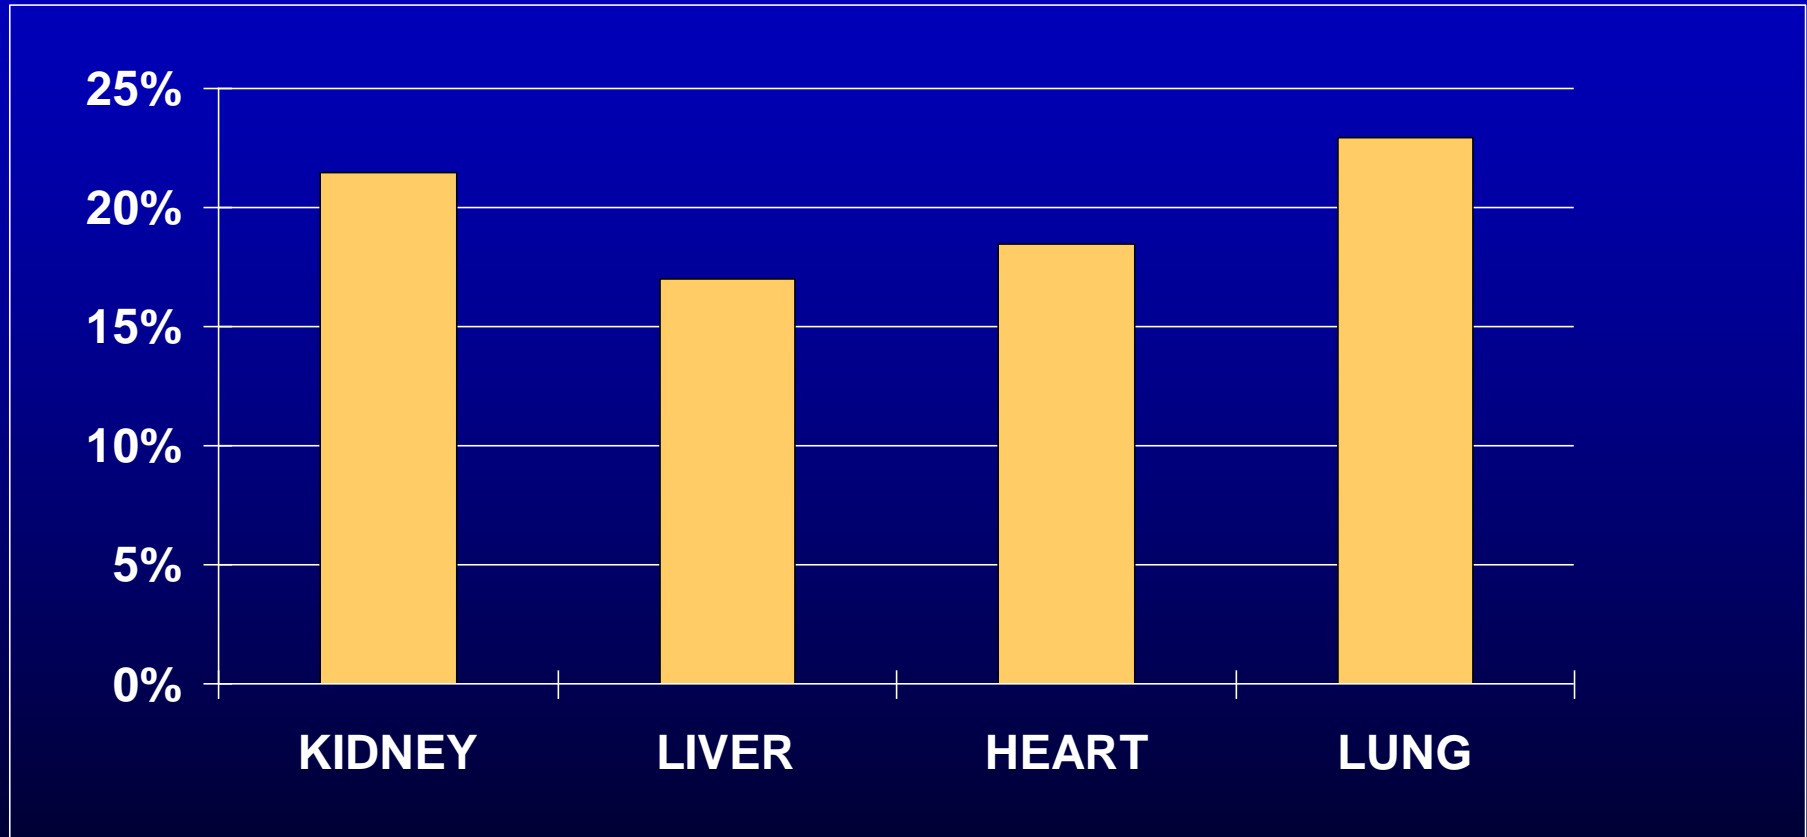

Utilized doners PMP

Flow on the waiting list during a year

Kidney Transplantation

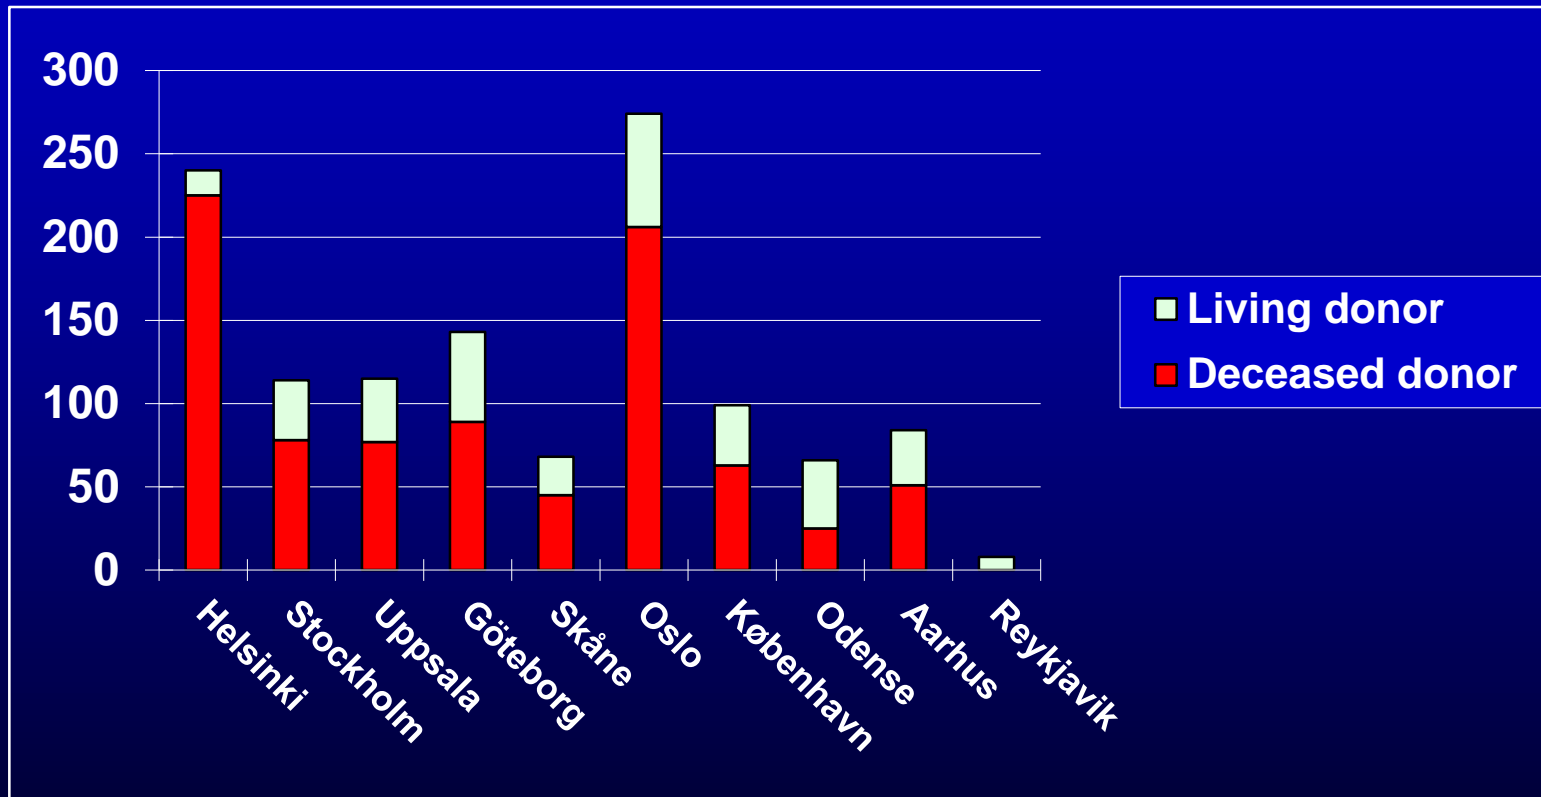

Kidney Transplantation 1989 – 2014

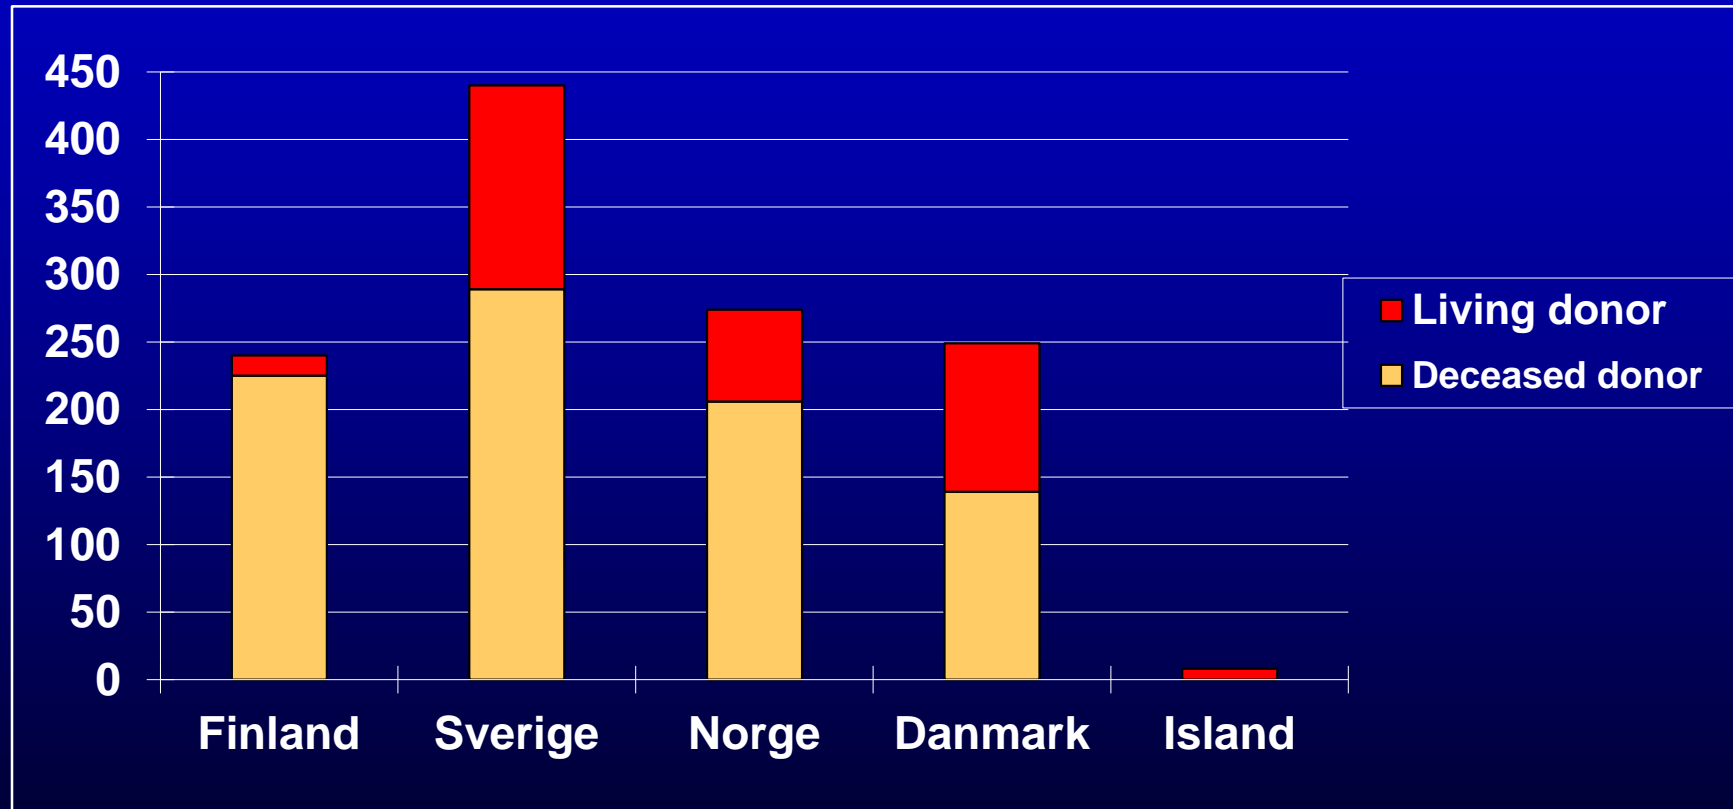

Kidney exchange rate 1969 - 2014

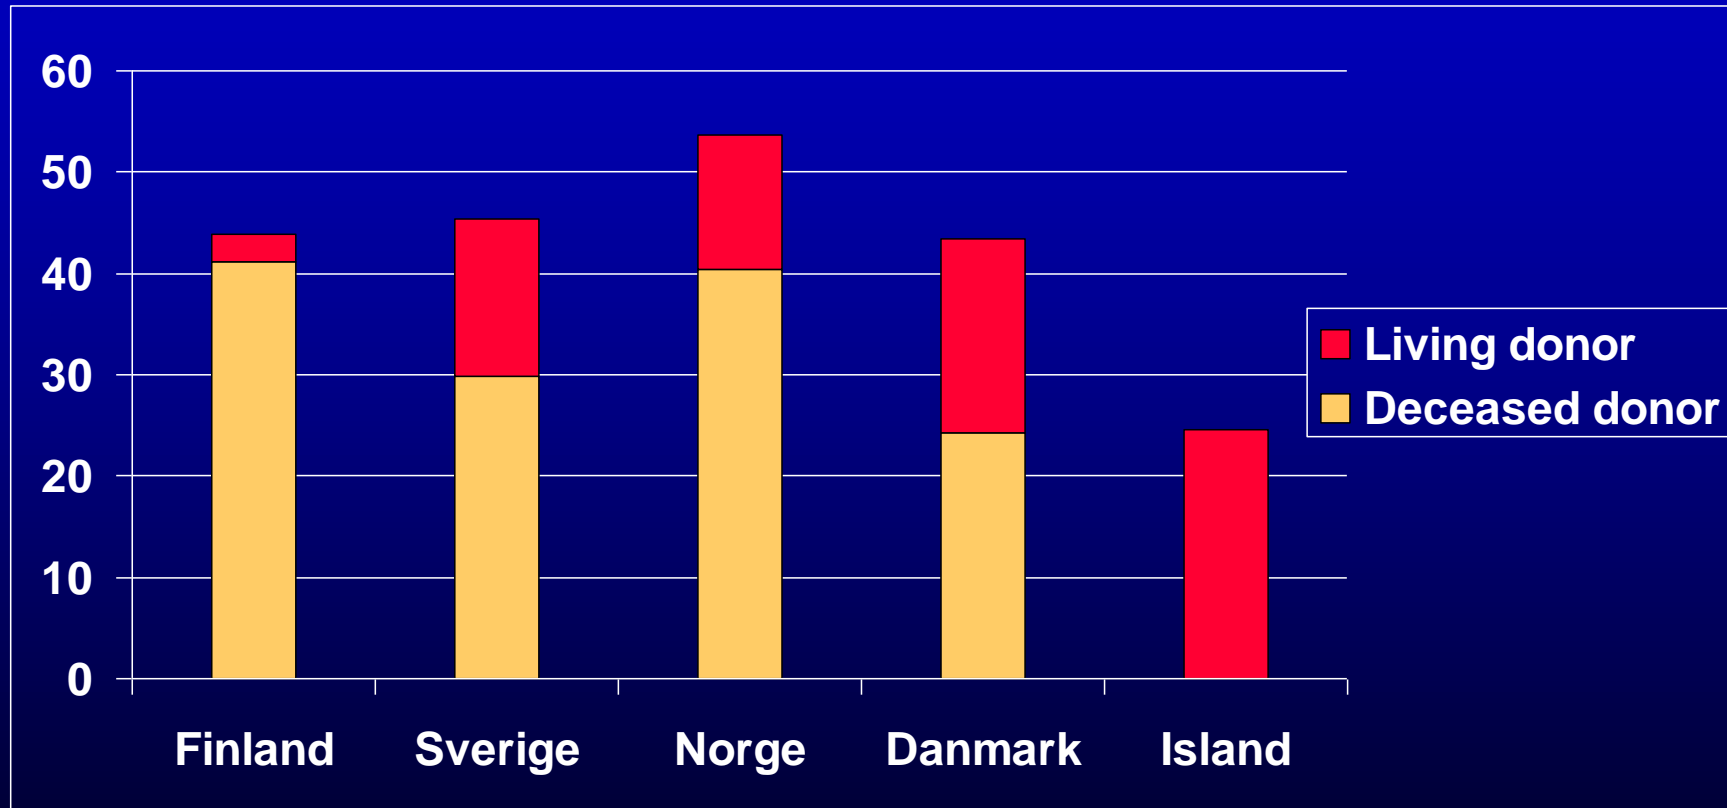

Kidney Transplantation activity 2014 by centre

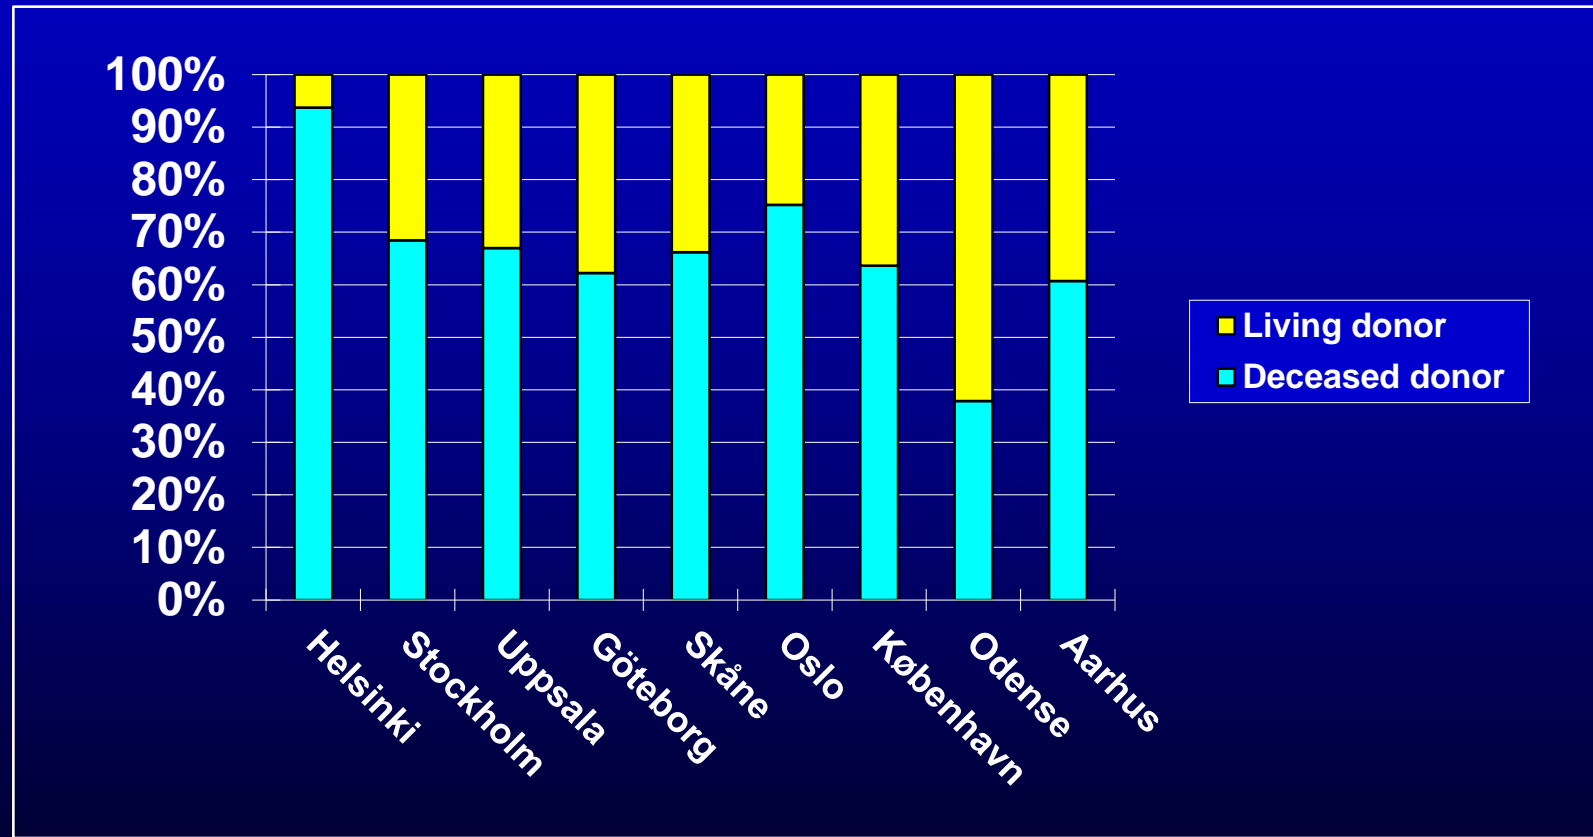

Kidney Transplantation 2014

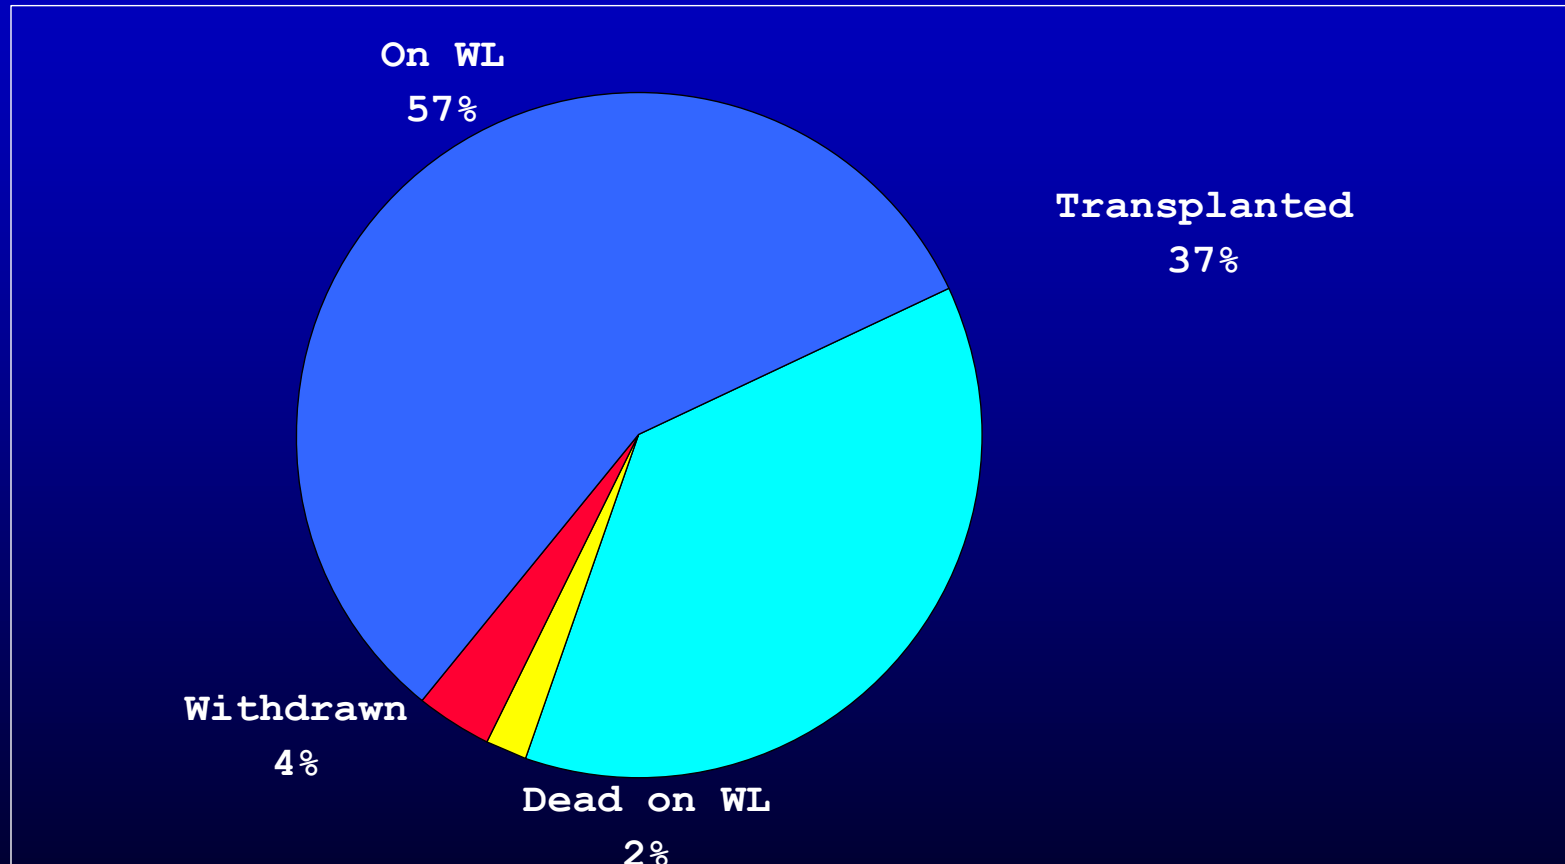

Kidney Transplantation PMP 2014

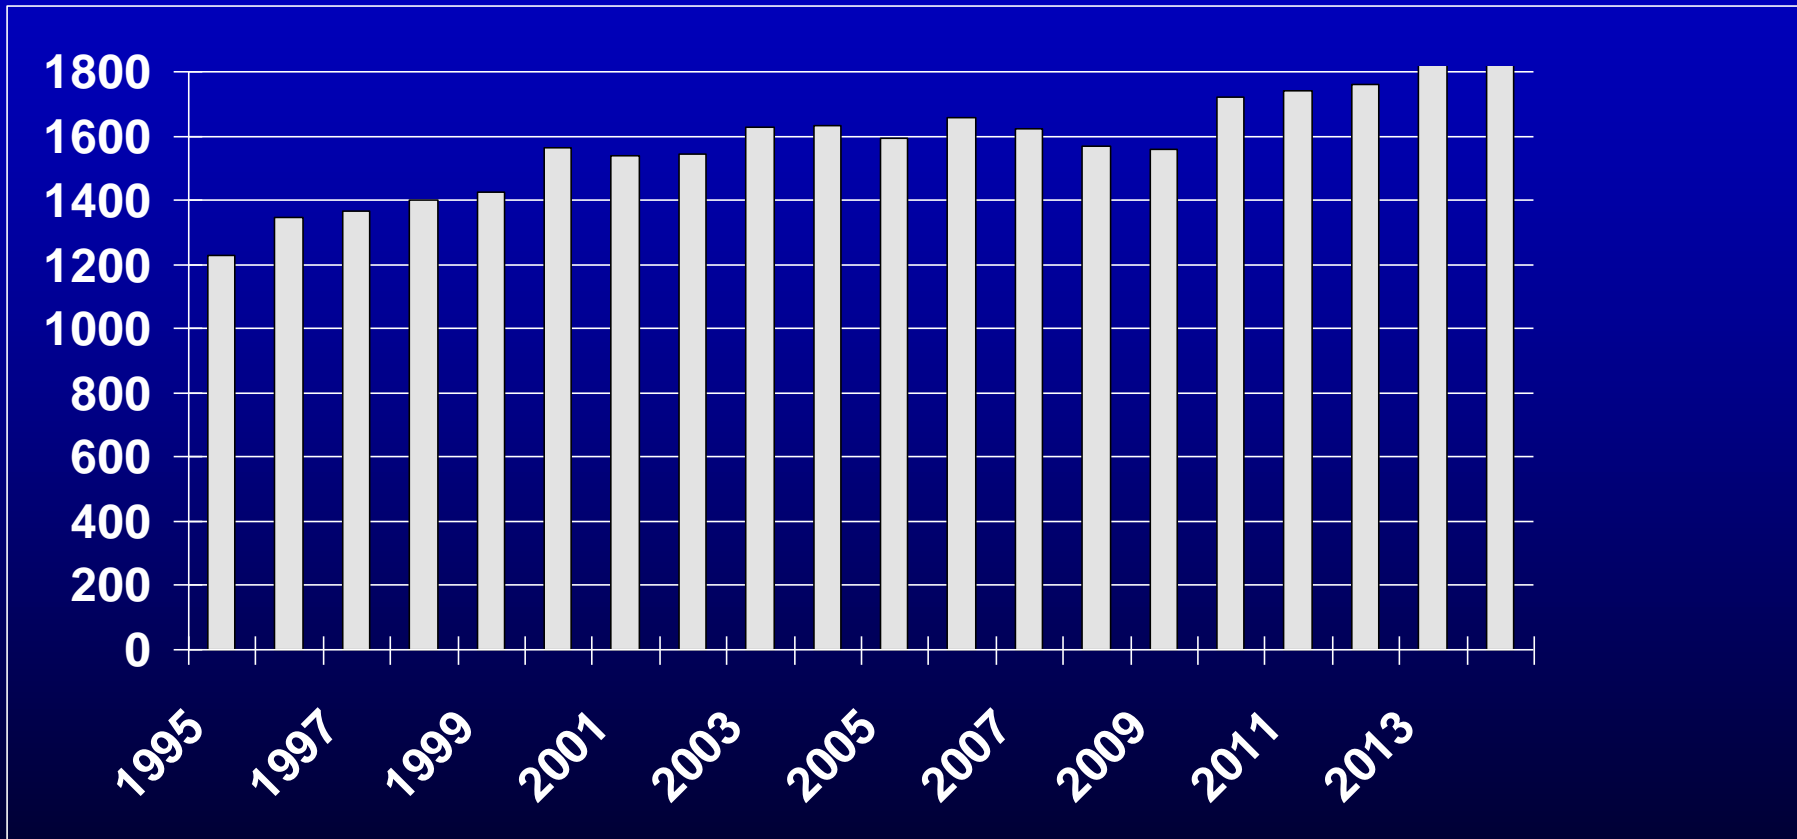

Kidney Transplantation 2014

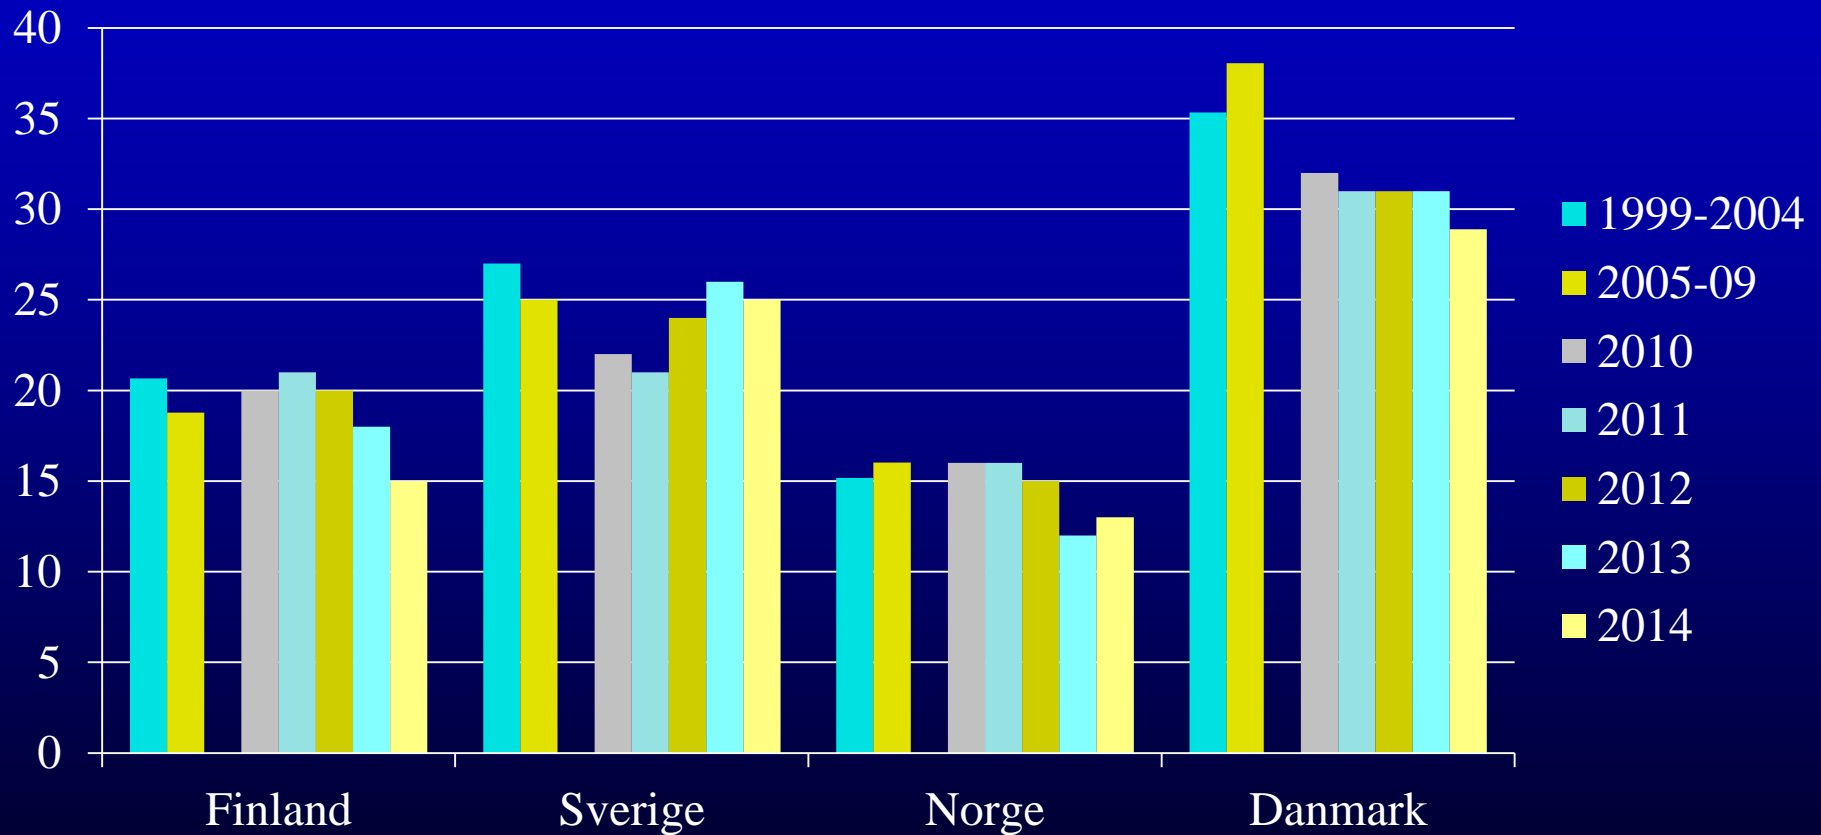

1379 new patients on kidney waiting list 2014

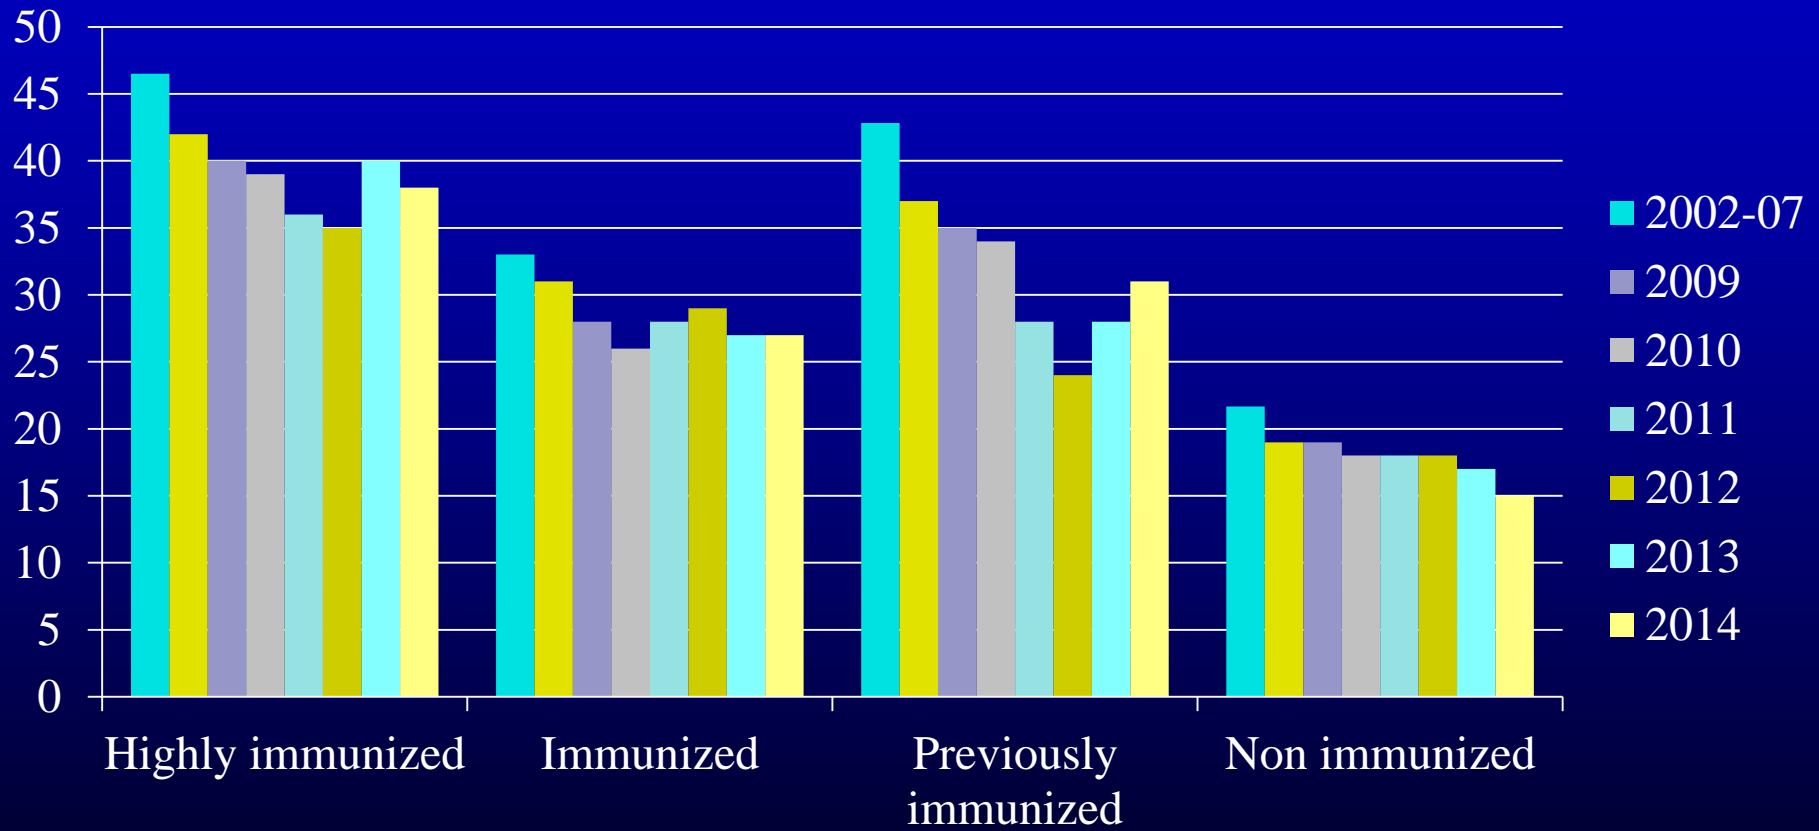

Kidney waiting list 1995 - 2014

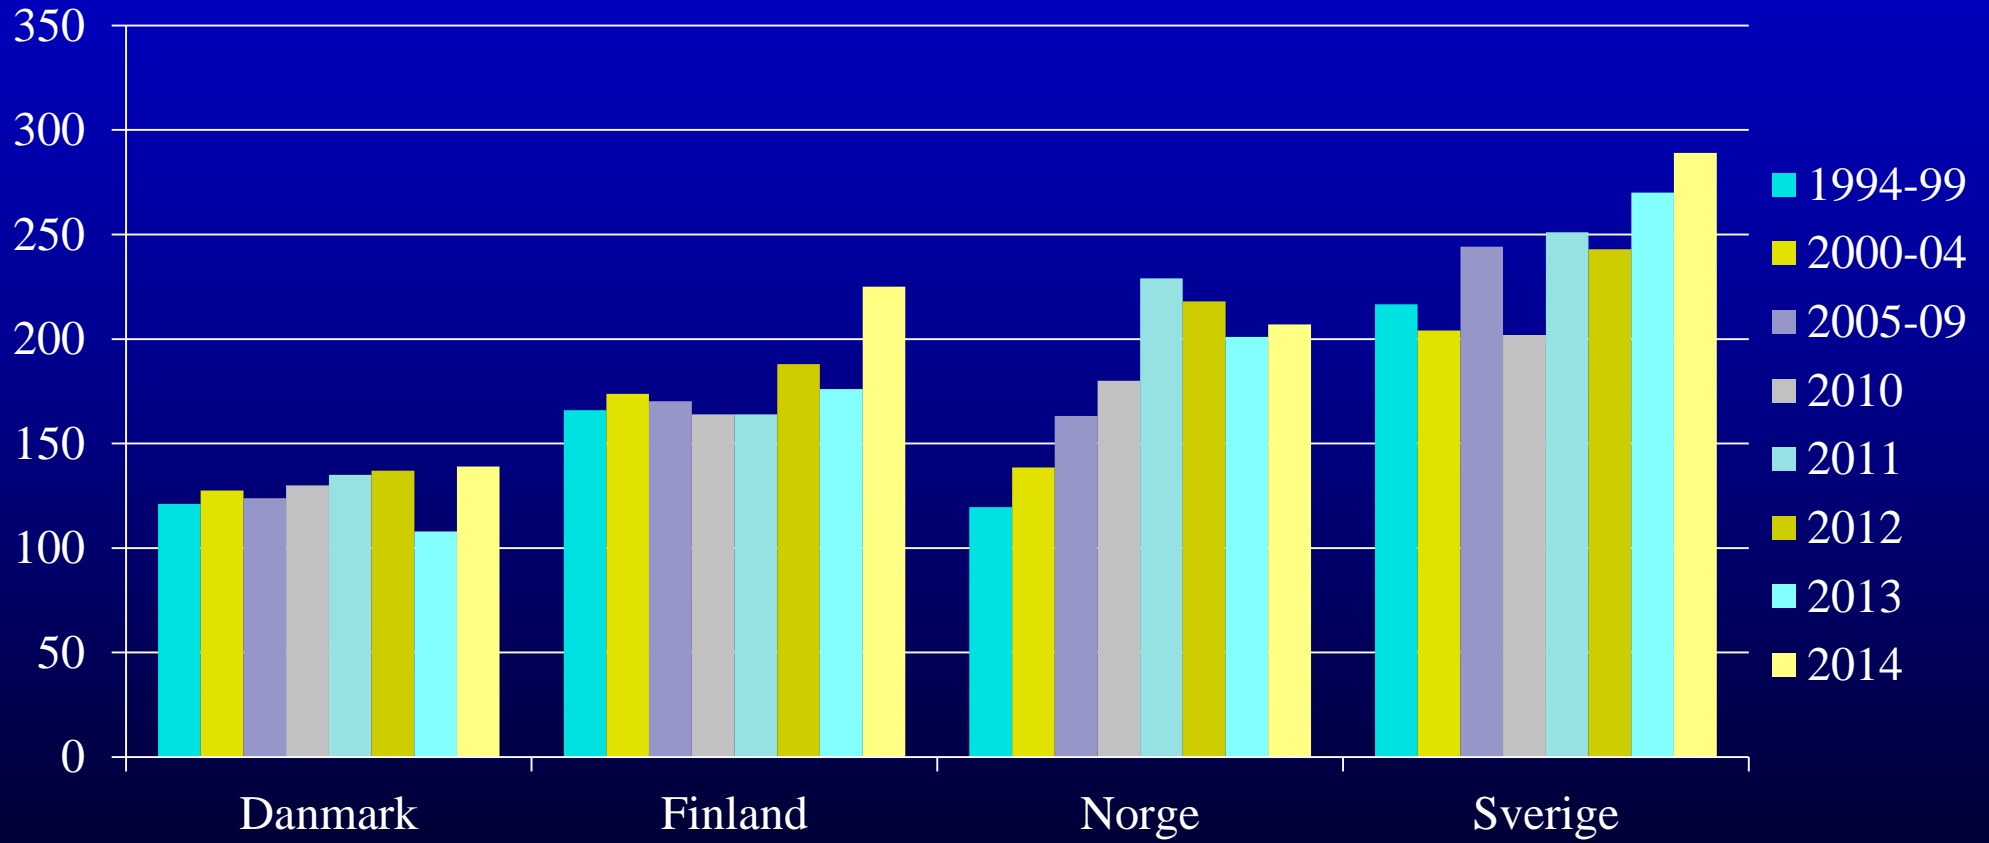

Average time on kidney waiting list at end of year

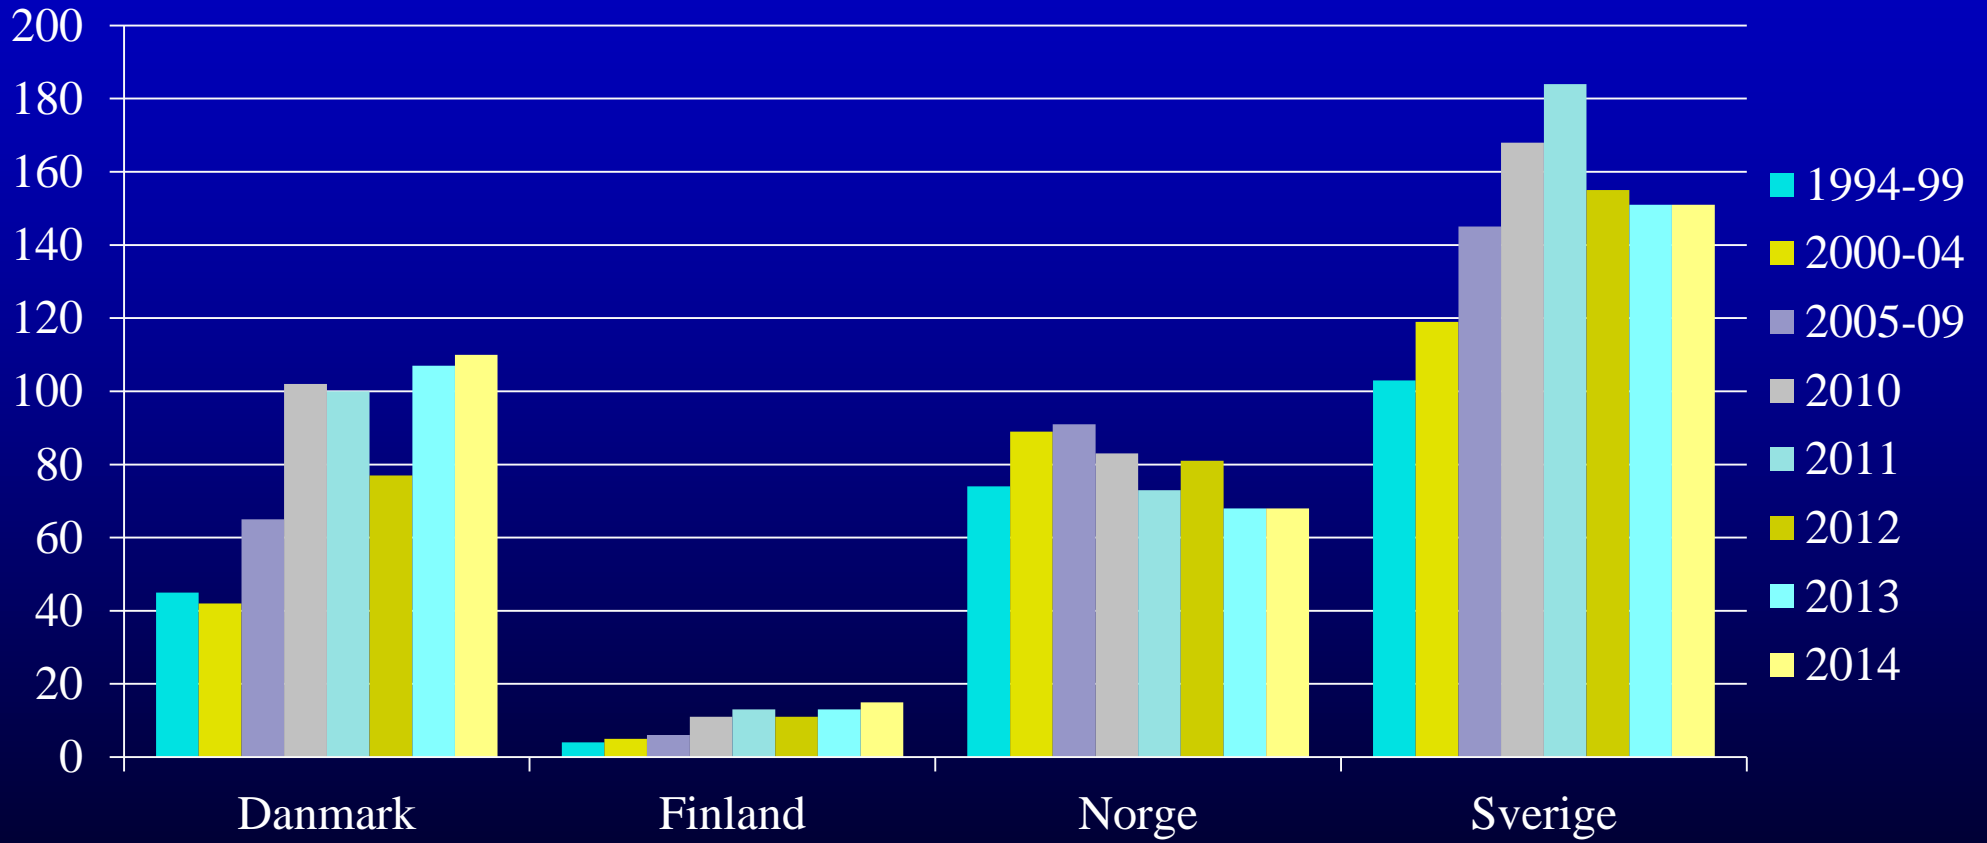

Average Months on Kidney Waiting List by Immunisation status at end year

Deceased donor kidney transplants 1994 - 2014

Living donor kidney transplants 1994 - 2014

EXCHANGE CRITERIA

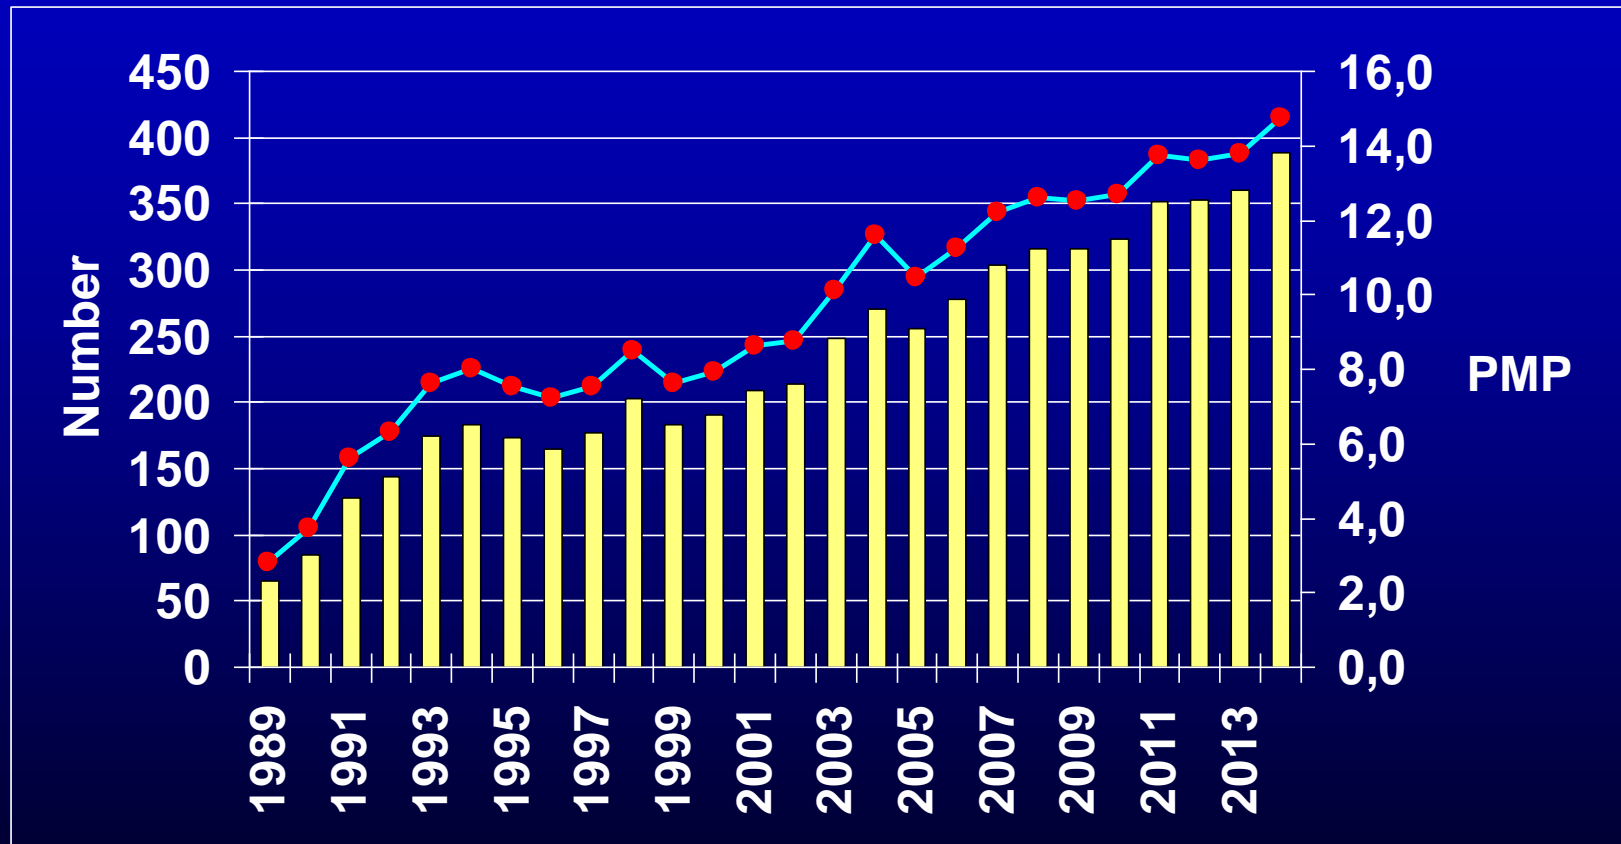

Kidney transplantation

- **Compulsory exchange of at least one HLA-A,-B,-DR compatible kidney:**
 - *1. Highly immunized ($PRA \geq 80\%$) patients who are HLA-A,-B,-DR compatible with donor.*
 - *2. Scandiatransplant acceptable mismatch program.*
 - *3. Immunized patients ($PRA \geq 10\%$ but below 80%) who are HLA-A,B,DR compatible with donor.*
 - *4. If organ donor is <40 years of age, at least one kidney is offered to recipient <16 years of age (counted from time of registration), if there is HLA-DR compatibility and in addition not more than 2 HLA-A,B mismatches.*
 - *5. Patients who are HLA-A,-B,-DR compatible with donor unless the proposed recipient is >30 years older than the donor.*
 - blood group 0 kidneys to blood group 0 recipients.
 - blood group B kidneys to blood group B recipients.
 - Return of another kidney within 6 months.

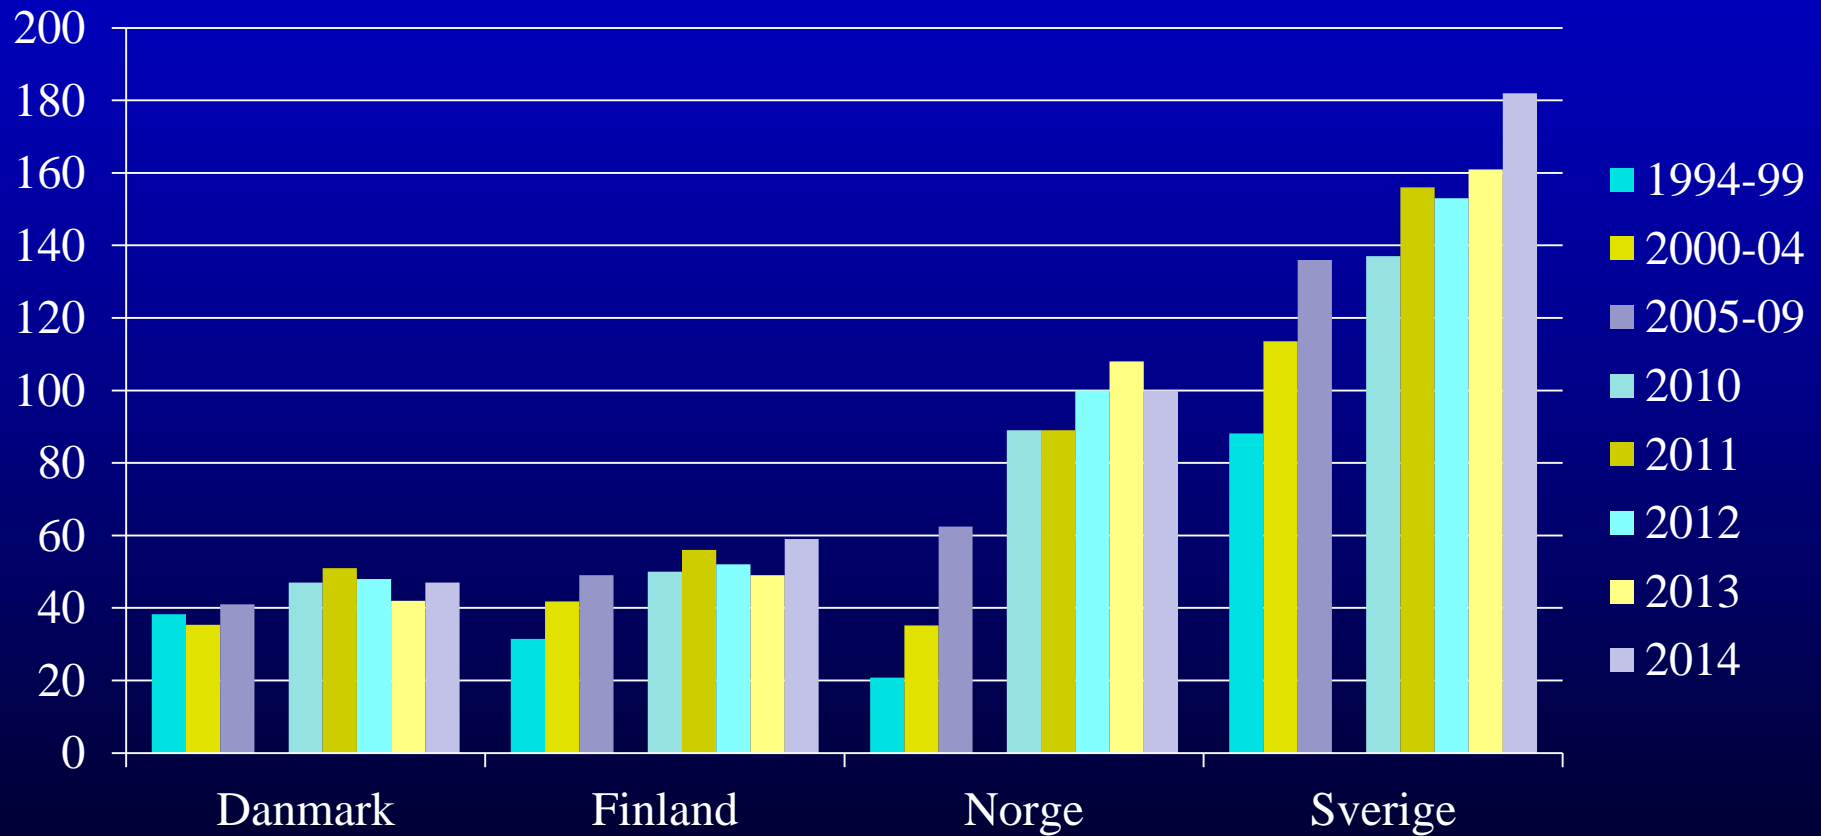

Liver Transplantation

Liver Transplantation

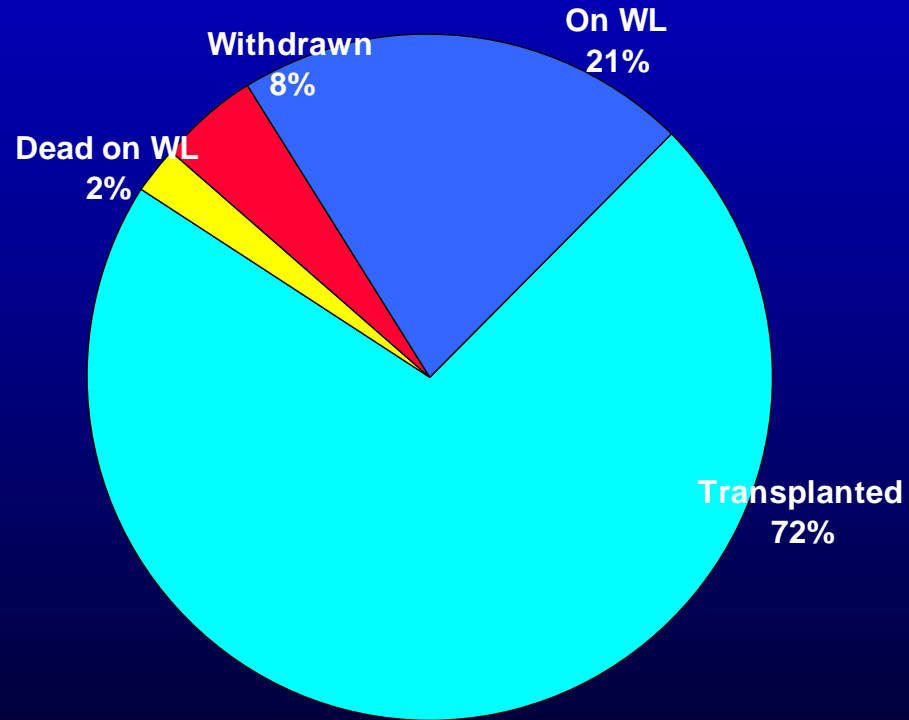

1989 - 2014

Liver Transplants 1994-2014

459 new patients on liver waiting list 2014

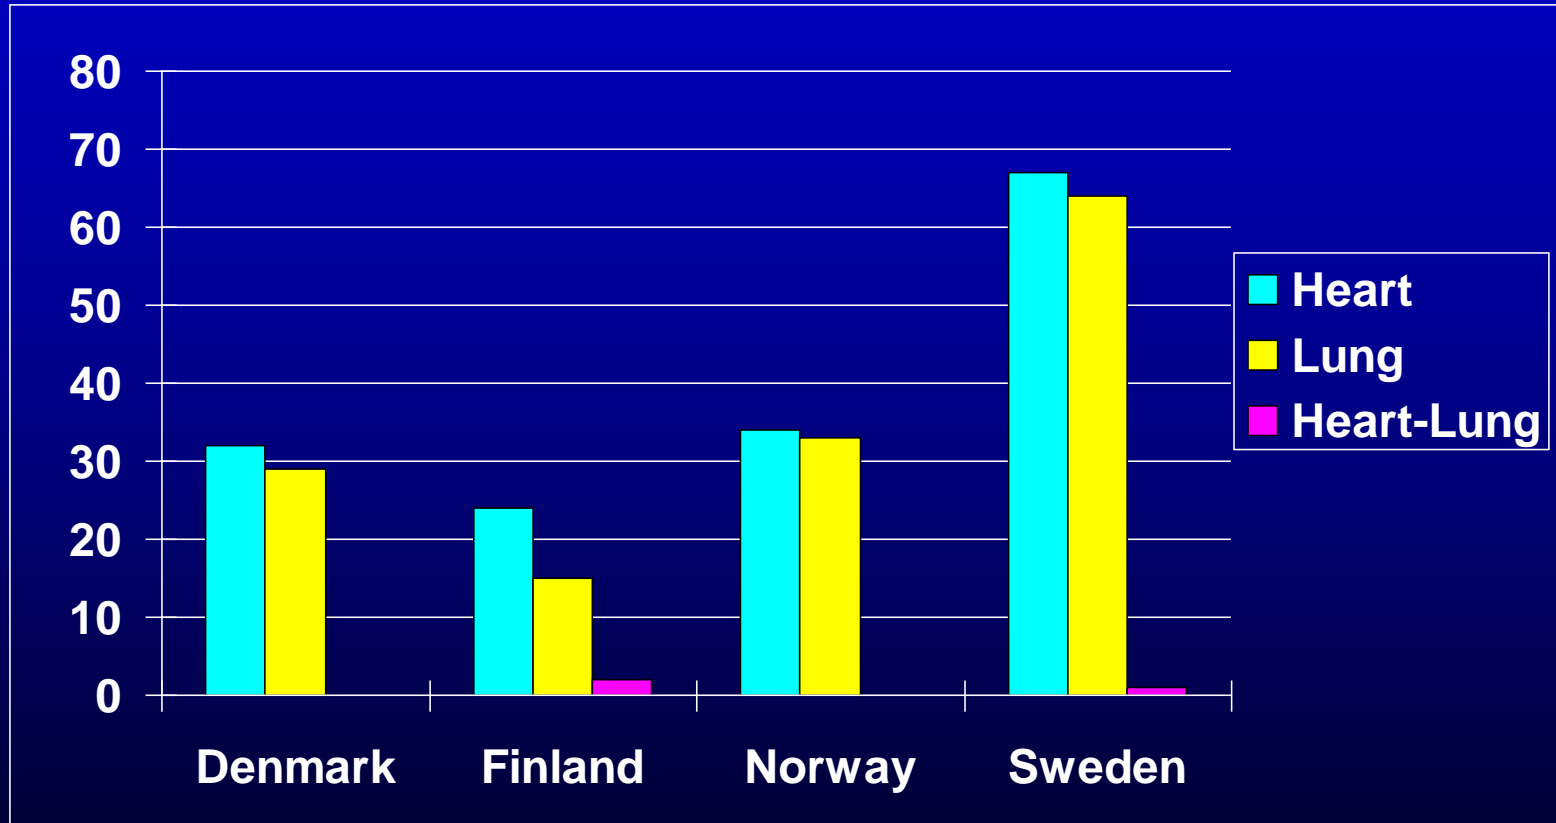

EXCHANGE CRITERIA

Liver transplantation

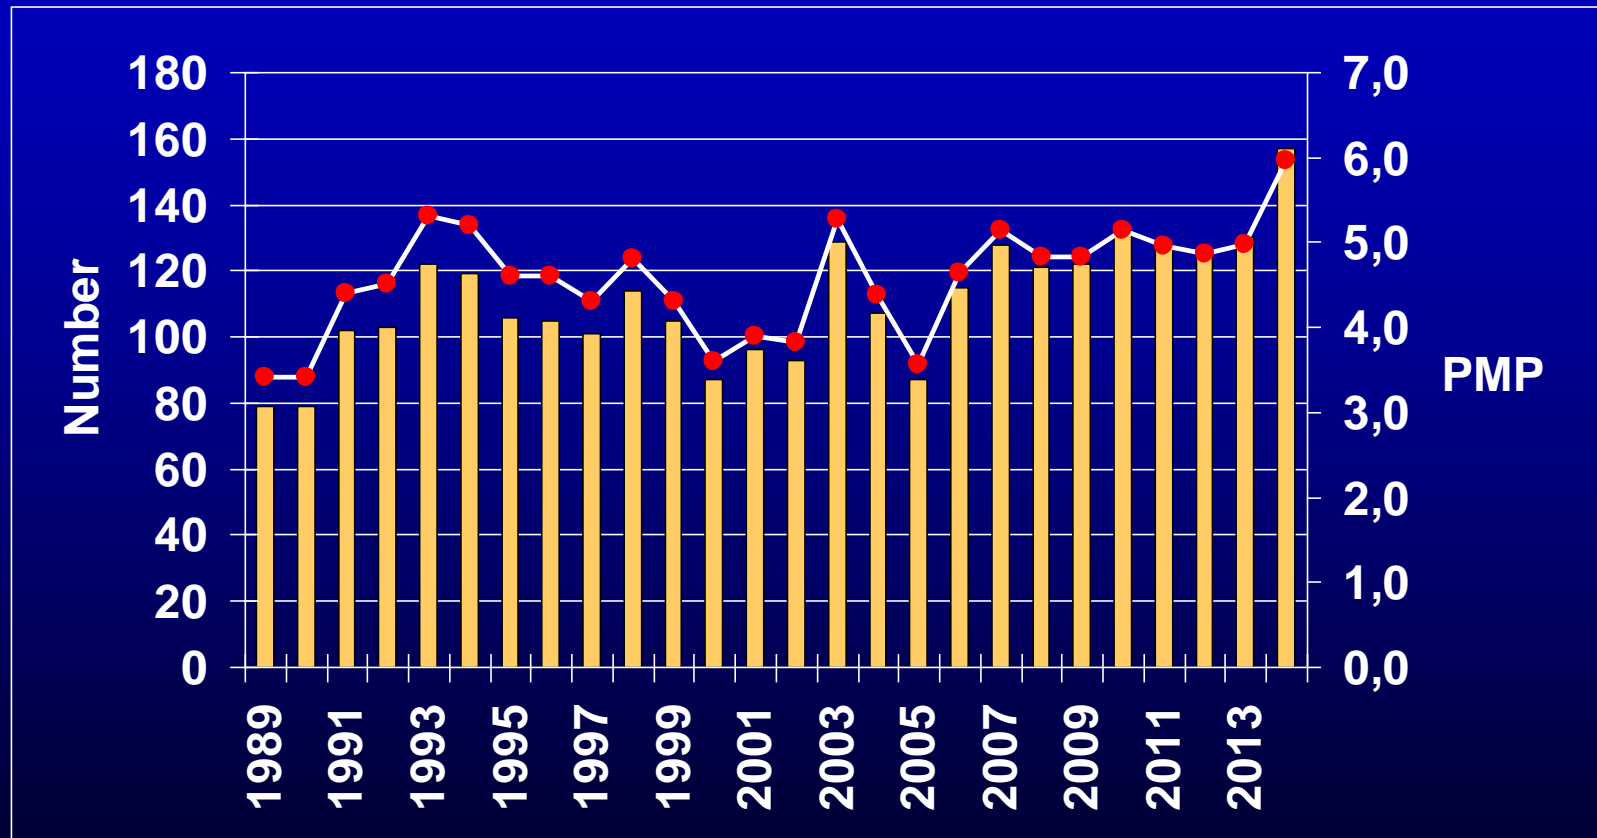

- **Compulsory exchange to highly urgent patients on waiting list:**
 - **acute liver failure**
 - **acute liver re-transplantation**
 - **highly urgent patients on waiting list must be transplanted within 72 hours**
 - **Return (pay back) liver to Donor center**
- **Rota system**

Thoracic Organ Transplantation

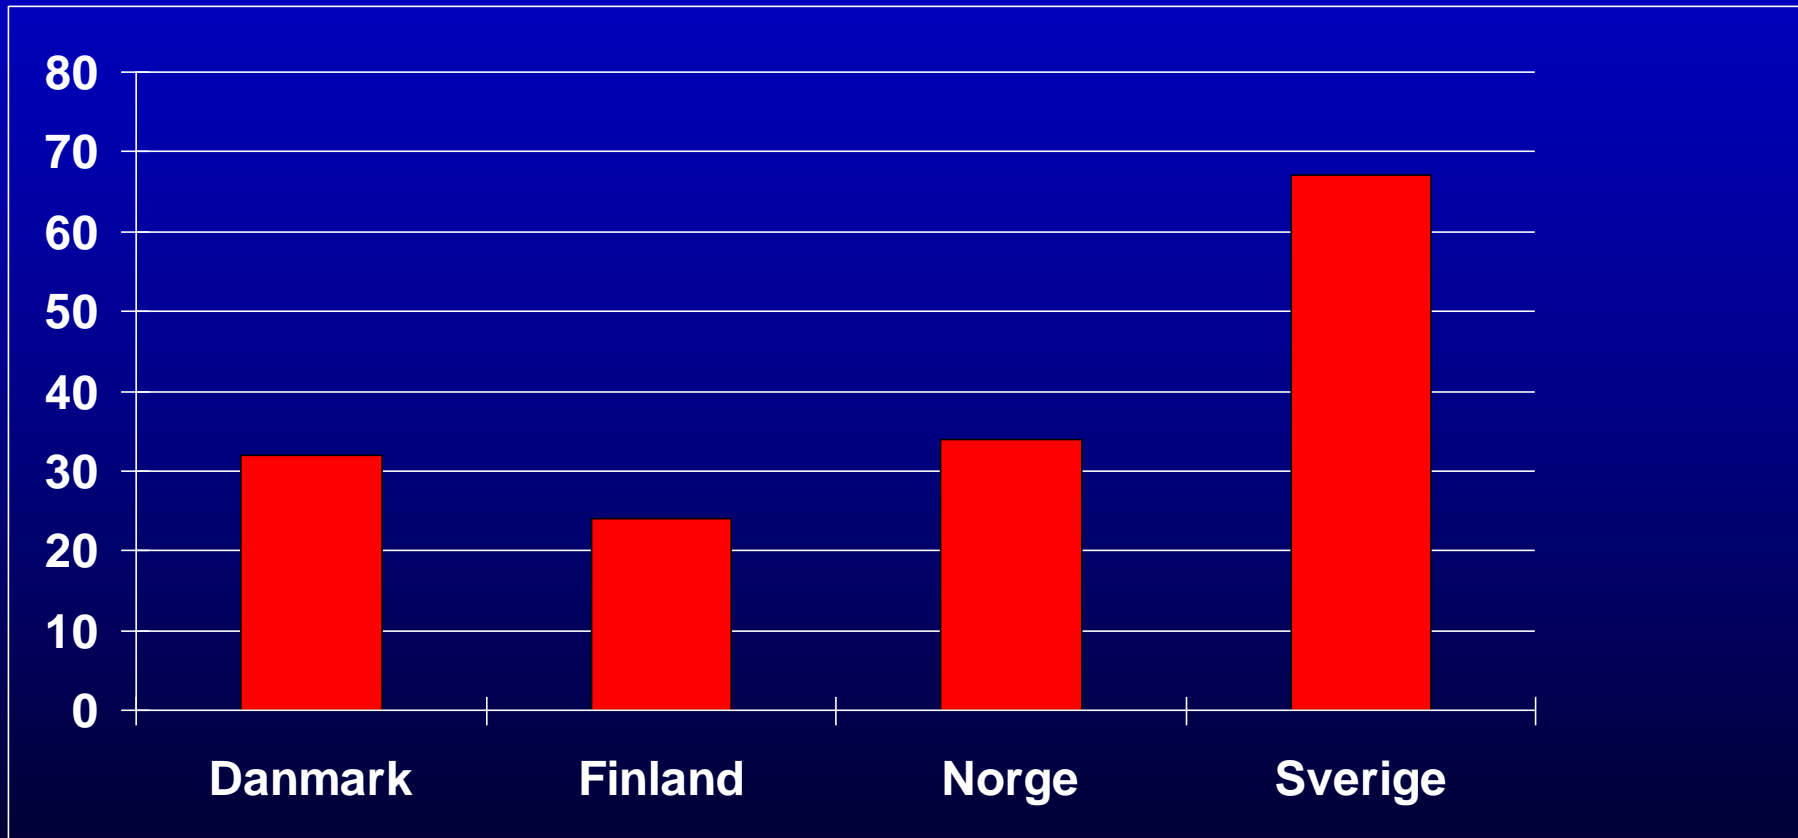

Thoracic organ transplants 2014

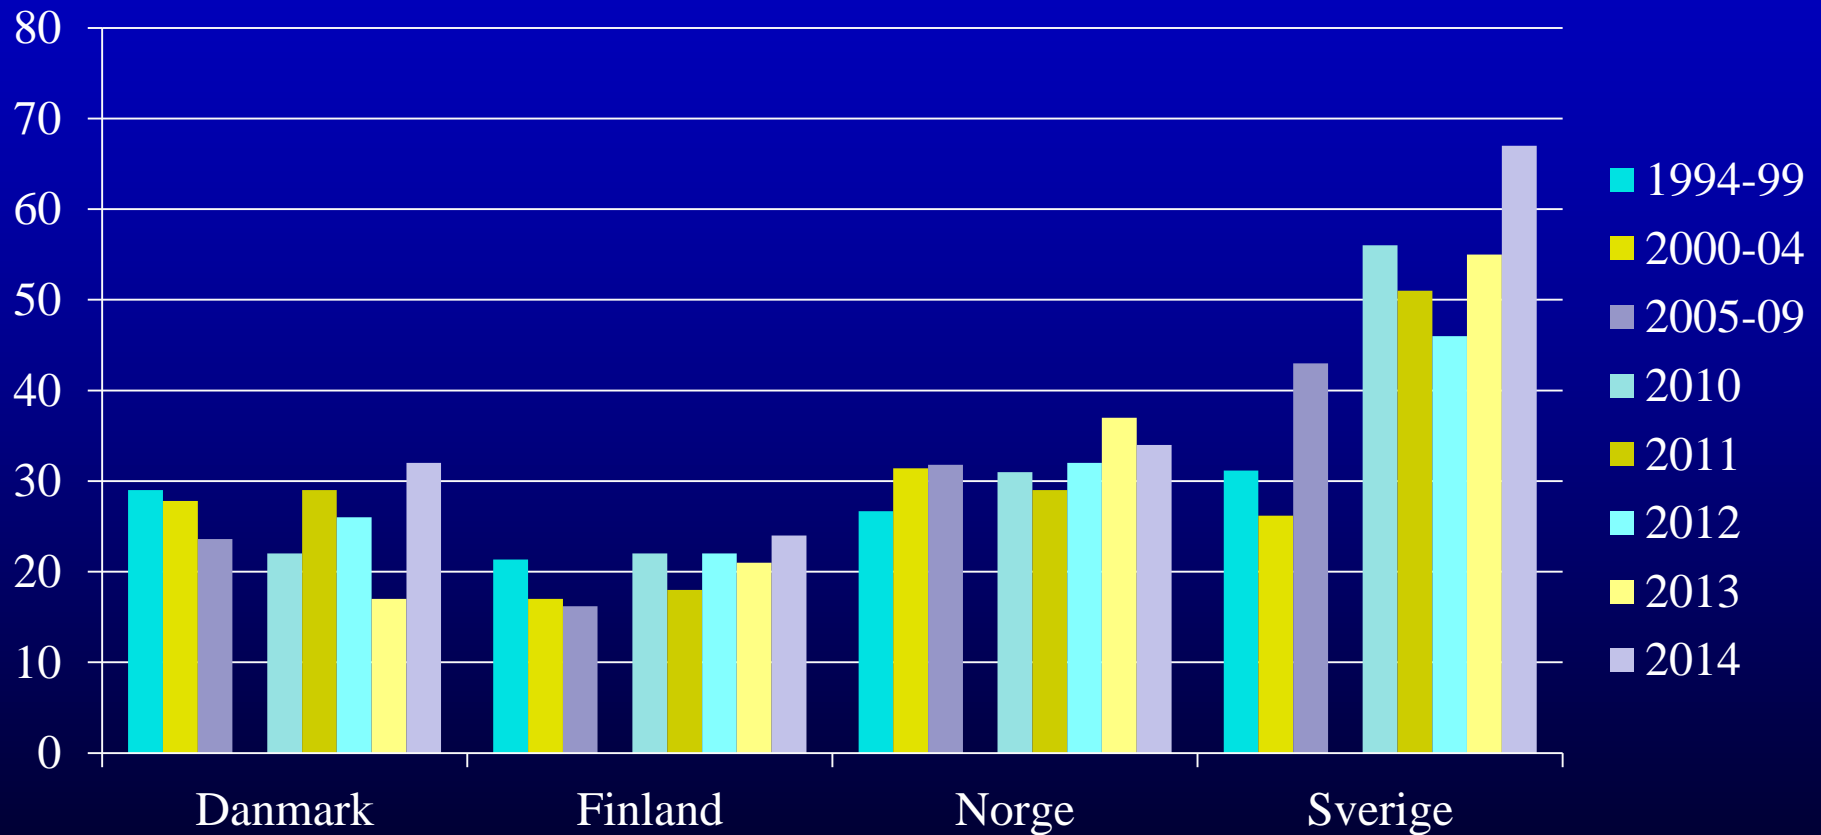

Heart Transplantation 1989 - 2014

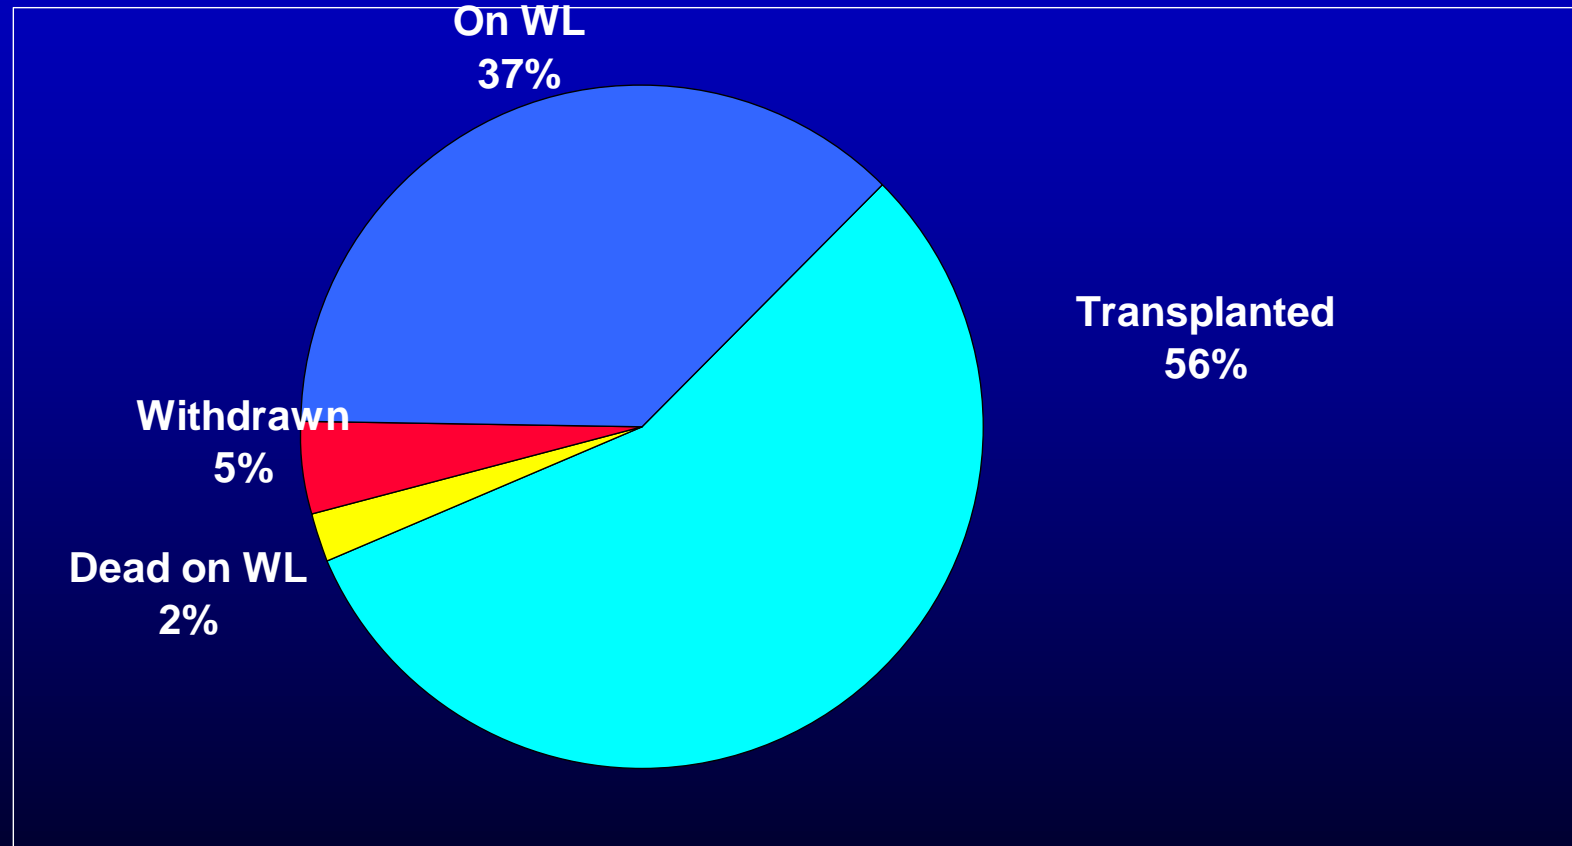

Heart transplantation 2014

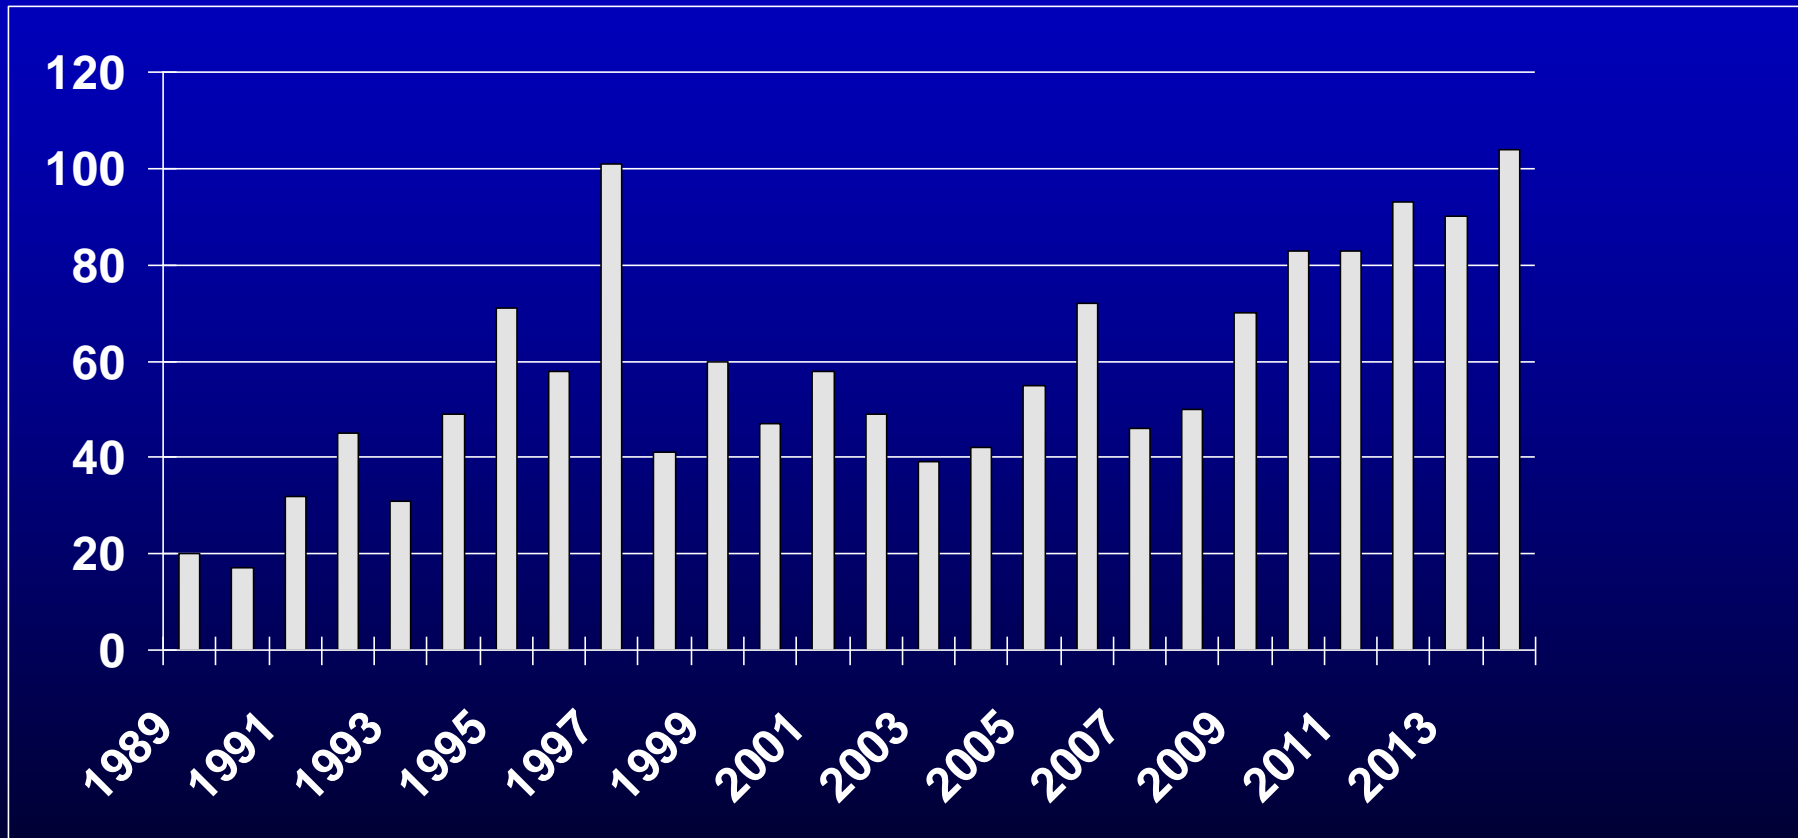

Heart Transplantation 1994 - 2013

191 new patients on heart waiting list 2014

Heart waiting list 1989 - 2014

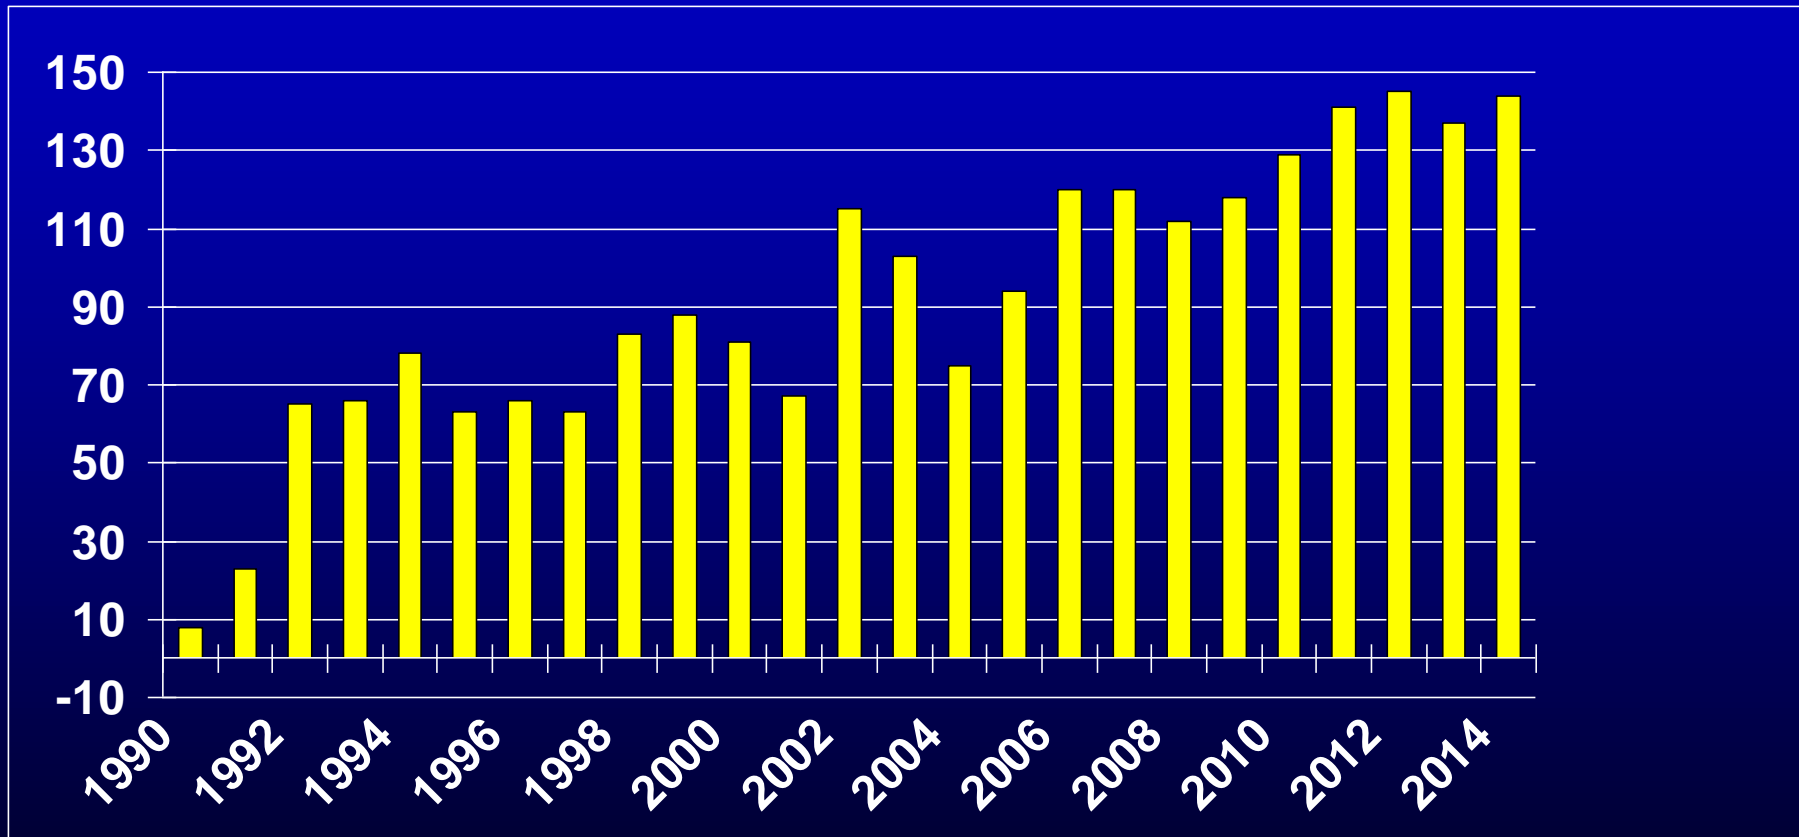

EXCHANGE CRITERIA

Heart transplantation

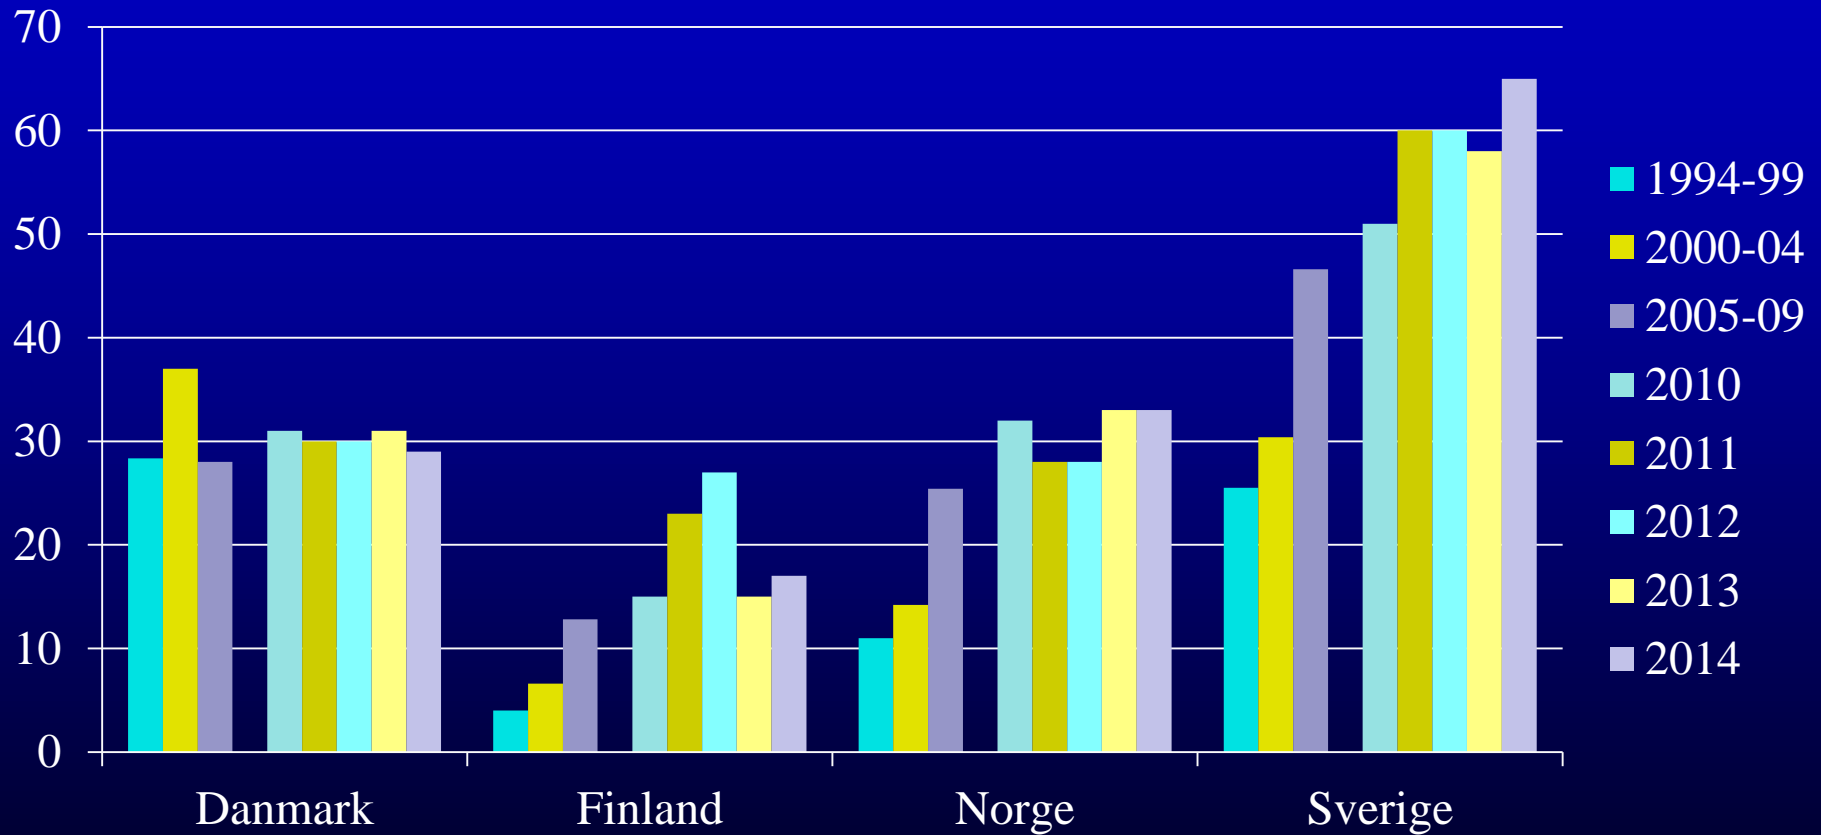

- **Compulsory exchange to highly urgent patients on waiting list:**
 - Patient on short-term assist devices (ECMO, centrifugal pump).
 - Patient on paracorporeal or implantable blood pump with device failure or uncontrollable device infection.
 - patients below 16 years on inotropic support or more than 12 months support on implantable LVAS.
- Rota system

Lung transplantation including heart-lung

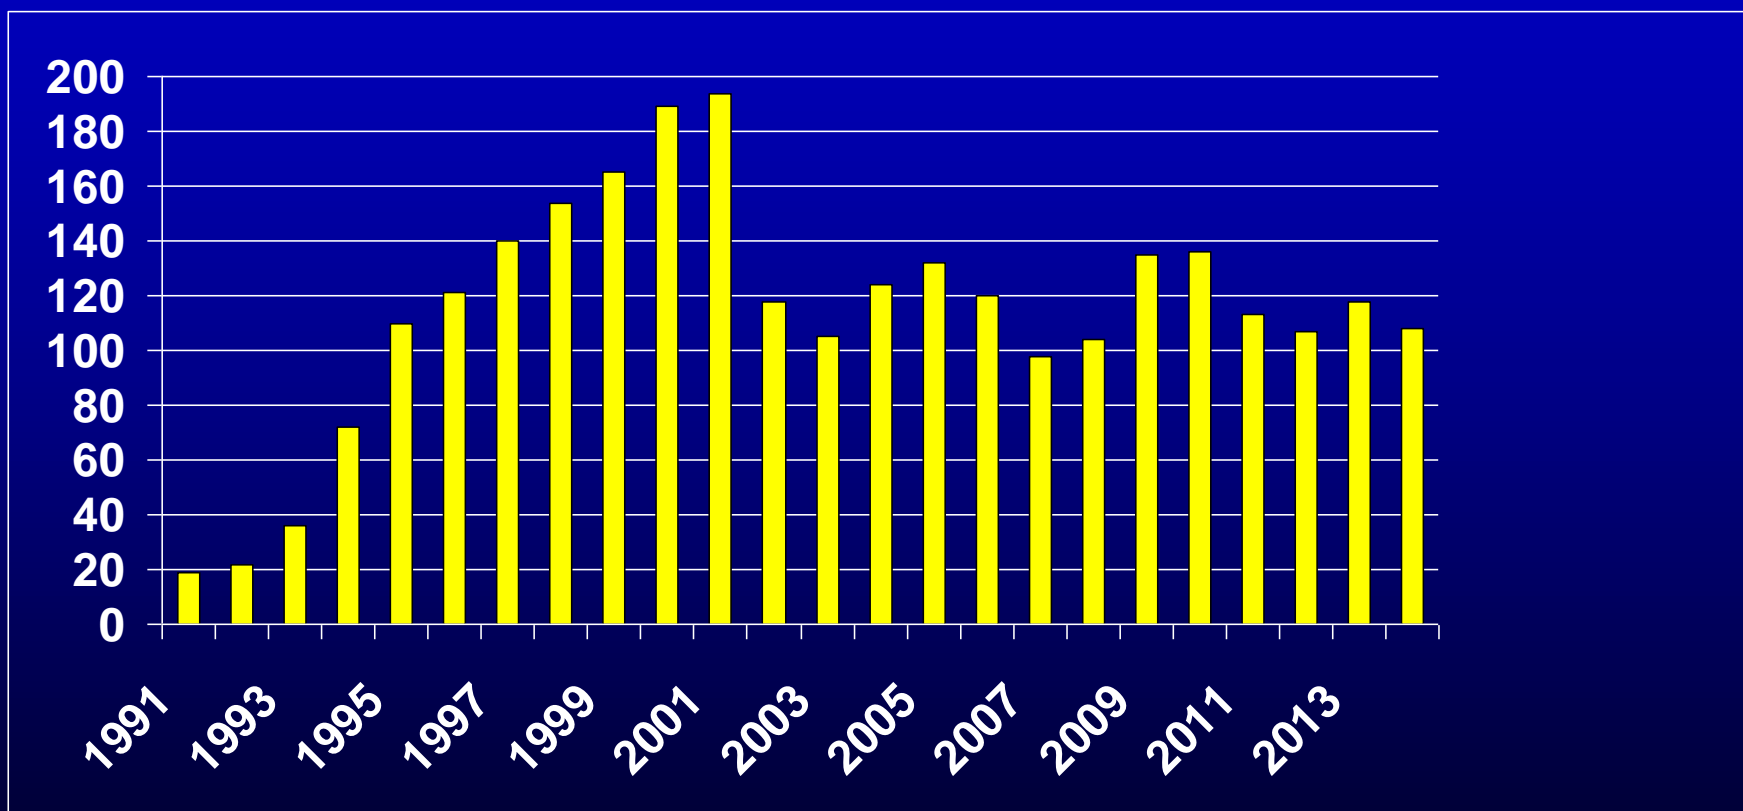

Lung Transplantation

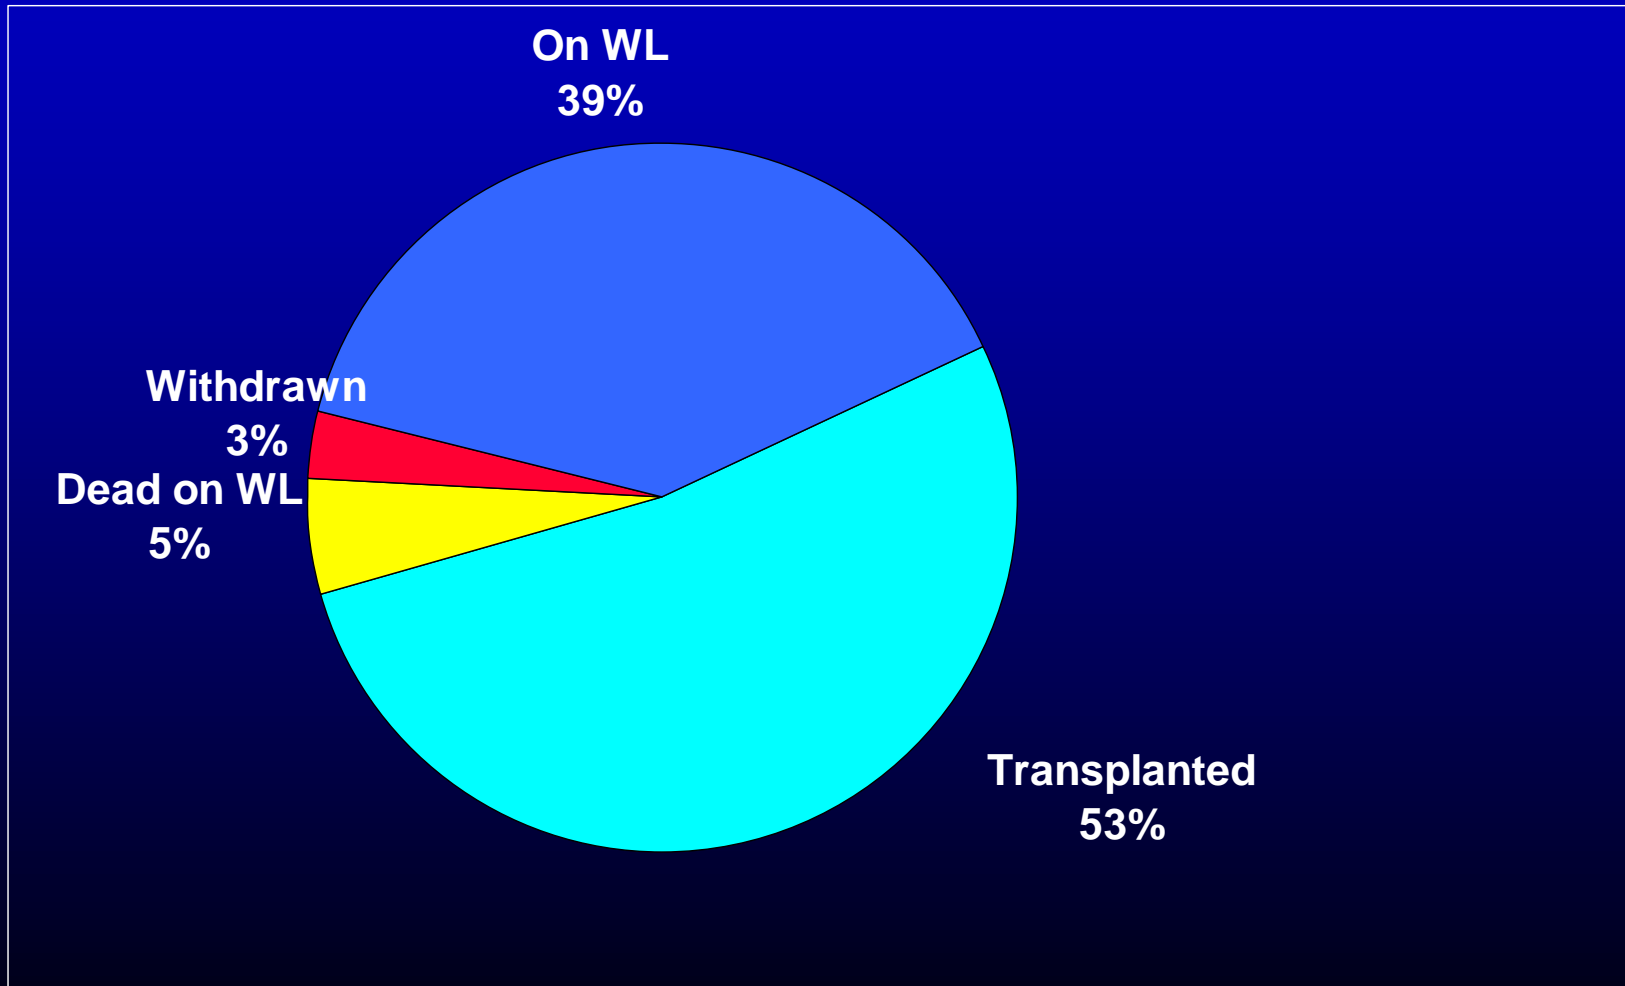

1994 - 2013

Lung waiting list 1991 – 2014

157 new patients on lung waiting list 2014

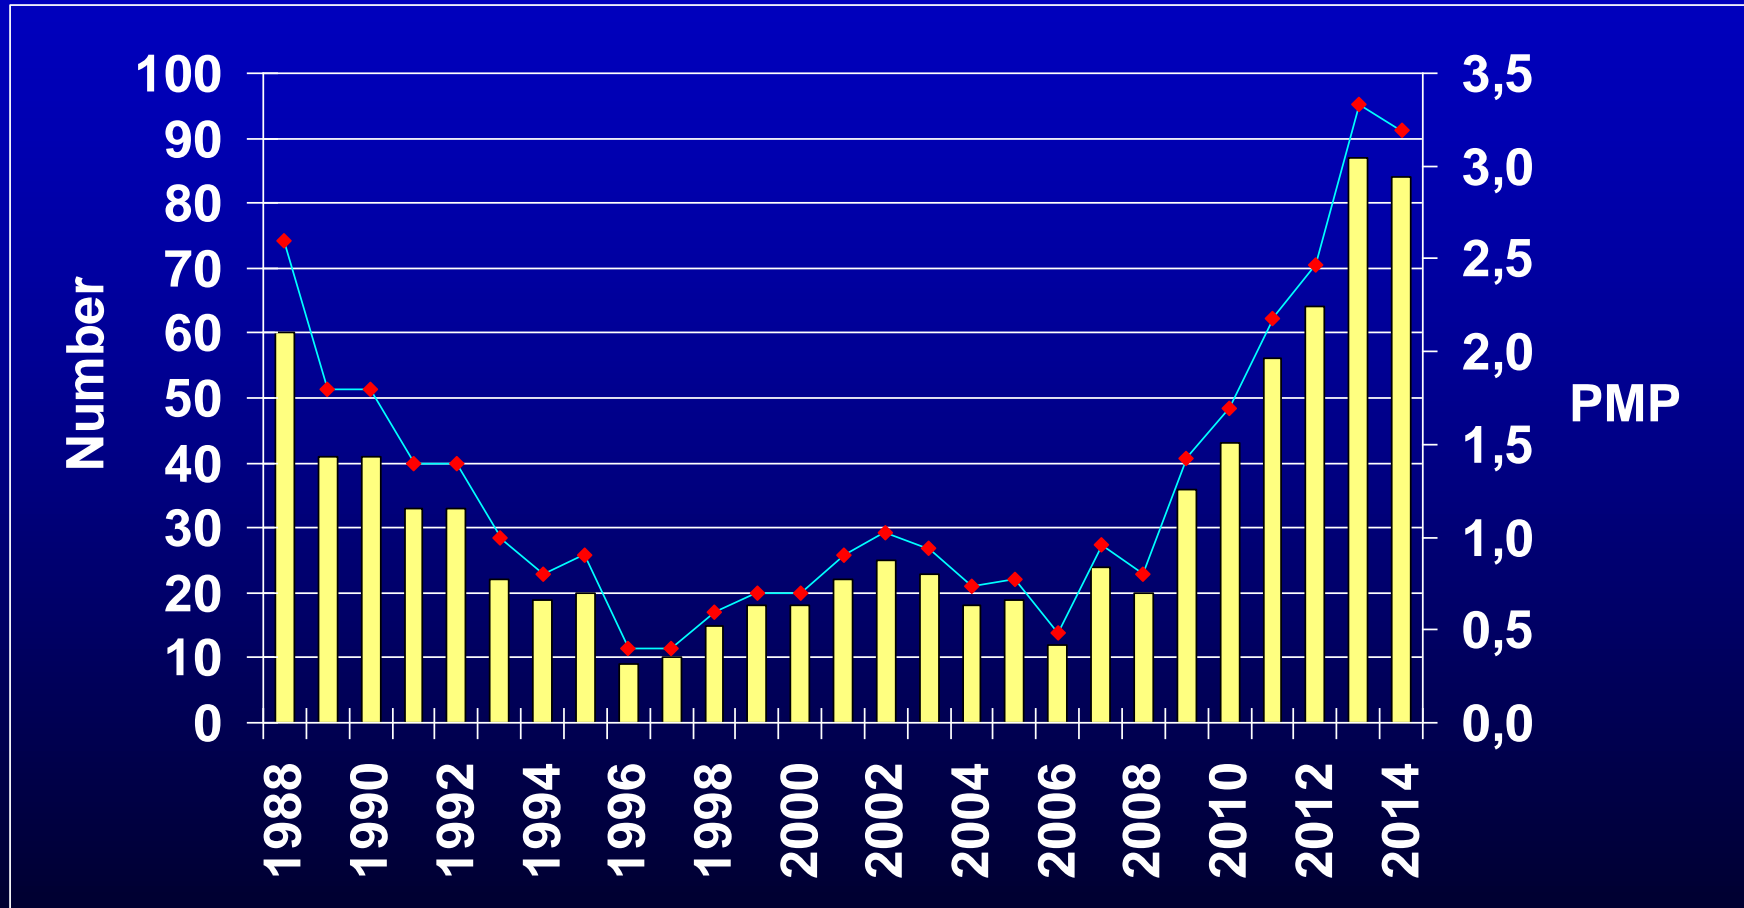

EXCHANGE CRITERIA

Lung transplantation

- **Compulsory exchange to highly urgent patients on waiting list (max. three patients per center per year)**
 - Priority 0: Patient on extra-corporeal circulatory support (ECMO, Novalung or other device) or ventilatory support*.
 - Priority 1: Patient with a rapid progression of organ failure with poor prognosis in a short time defined by the responsible centre*.
- **Rota system**

Pancreas Transplantation

Pancreas Transplantation 1988 – 2014

Thank you
