

# Research Grant Report Form

---

## **Name and origin of applicants:**

Principal investigator: Hans Eiskjær, MD, DMSc  
Department of Cardiology, Aarhus University Hospital, Skejby

---

## **Purpose of research project granted:**

"Platelets, coagulation and cardiac allograft vasculopathy after heart transplantation"

---

## **Amount granted:**

150,000 DKK

---

## **Report of scientific progress:**

The research project is still ongoing. We have examined approximately 40 patients in the project. We still need another 20-30 patients and furthermore wait for their follow up visit 12 months after inclusion.

So far we have not published or presented any data yet but hope to do that within the next 12-18 months. We will certainly make sure that Scandiatransplant will be mentioned.
